

# RUSS STILL HOLDING CITY 19 MILES FROM WARSAW

## MAIN ARMIES FALLING BACK UPON PREPARED POSITIONS FORMING A MIGHTY BARRIER

**Torch Is Applied to Towns Near Warsaw**  
—Slavic Press Believes Occupation of Warsaw Temporary—Ivangorod Falls and Thousands Are Fleeing Riga, Taking Church Bells With Them—Austrian Archduke and German Prince to Govern Poland—Collective Representations Made to Serbia to Make Concessions That Roumania, Bulgaria and Greece May Join Allies.

By Associated Press. Petrograd, August 6.—Novo Georgievsk, nineteen miles northwest of Warsaw, remains in Russian hands today, says the Russian War Office.

The fortress has been prepared for a siege and it already is invested. It is the only fortified position on the Vistula in possession of the Russians.

The immediate causes of the evacuation of Warsaw, according to the war office, were "the advances of the enemy in great force on the roads toward Ostrov, from Ostrolenka and Rozan, on the one hand, and the presence of large forces of the enemy who had broken across the Vistula river between Ivangorod and Warsaw at Matziewitz."

The report also says the Russians are gradually moving back to the positions assigned to them, and it is declared that with the occupation of new positions a serious barrier will be placed against the Austro-German progress toward Brest Litovsk.

The loss of Warsaw had long been discounted in Petrograd, and it caused no excitement. The newspaper comment on the fall of the Polish capital without emotion, referring with regret to its loss, as a necessity

which is regarded by them as being only temporary.

Vienna, August 6.—The occupation of Ivangorod yesterday by Austro-German troops is announced in an official statement from the front.

Petrograd, August 6.—A letter from Warsaw today says the towns of Jirardoff, Groitzl and Blonie all were in flames when the Germans reached them. The invaders are said to have been forced to fight fire so persistently in the advance to the Vistula river, that the Teutonic armies were preceded by detachments of military firemen.

London, August 6.—With the great fortresses of Warsaw and Ivangorod captured, and the fall of Riga, the capital of the Baltic provinces, imminent, the Austro-German onslaught has reached its height in the east, and the next step will be the German emperor's triumphant entry into the Polish capital.

That event is likely soon to be followed by the pronouncement of a united and semi-autonomous Poland, embracing not only the territory wrested from the Russians, but the Austrian crownland of Galicia.

Meantime, the Russian armies are fighting their way back toward Russia proper, inflicting blows on the invaders wherever possible, trying to fend them off the railways running north, in order that the end of the German nippers may not meet and, enclosing, bring disaster to Russian arms.

The position of the army of Grand Duke Nicholas now is a matter of solicitude, as the occupation of Warsaw is believed to be a prelude to a greater purpose—that of enveloping the retreating forces.

Petrograd reports show the grand duke had retired to the right bank of the Vistula, both at Warsaw and Ivangorod, destroying the bridges at both points and contesting the German advance across the river.

Back of the retreating Russians is the vast morass of central Poland with few railways and primitive roads, making virtually impossible a quick movement of guns and supplies while back of Warsaw the only fortress available as a rallying point for the Russians is Brest Litovsk.

Thus the Russians are menaced by General von Beulow's column, bending southward, and by Field Marshal von Mackensen's southern army, bending northward.

The fall of Ivangorod proper, forecast in the Russian retirement from the west of the city, is officially reported today in bulletins both from Berlin and Vienna.

Nish, Serbia, August 6.—Another

step in the effort being made to bring about a Balkan agreement so that Bulgaria, Roumania and Greece may be mustered on the side of the entente powers, was taken here today by the ministers of Russia, Great Britain, France and Italy, who made collective representations to the Serbian premier.

London, August 6.—The occupation of Warsaw now is centering attention on a series of important events that are being arranged. First will be the selection of a German governor, possibly a son of the German Emperor, and an Austrian Arch-Duke, who will be vested with authority akin to that which Napoleon gave to his brothers over conquered lands.

Petrograd, August 6.—Ten thousand persons have been leaving Riga, the Baltic capital, daily for a week. Among the objects most carefully removed are church bells.

## CROP REPORT ISSUED TODAY

By Associated Press. Columbus, August 6.—The state crop report, issued today, showing the condition of crops August 1, gives ground for still more optimism as to the Ohio wheat crop. It puts the prospect at 111.

## GUARD KILLS PRISON DEMON

By Associated Press. Columbus, August 6.—George Bayso, serving an indeterminate sentence from Cuyahoga county for forgery, was shot to death at the penitentiary here this morning by Guard Hostetter, in self defense.

Bayso was attacking his cellmate, Ray Cole, serving ten years from Licking county for shooting with intent to kill. The guard heard Cole's outcries.

When the guard opened the cell door Bayso lunged at him with a piece of steel, sharpened to a point and Hostetter fired. Bayso fell dead.

Cole was stabbed about 20 times. His condition is not serious. Bayso is believed to have become suddenly insane.

## LOOTERS AT WORK IN ERIE

By Associated Press. Erie, Pa., August 6.—Troopers of the state constabulary patrolled the flood section today. Sensational rumors of looting during the night kept the police busy.

One man, said to have taken articles from a flooded house, was shot, but not seriously wounded. Another alleged looter also was reported to have been shot.

Intense excitement was occasioned before midnight when, after a heavy rainfall, a man ran through the district shouting "look out, another flood is coming."

## CREW RESCUED

By Associated Press. Queenstown, August 6.—The British steamship Midland Queen was sunk on Tuesday, last. The crew of 22 and the chief officer's wife and child were rescued after being 72 hours in open boats.

## WILL BUY THE TOWN OUTRIGHT

By Associated Press.

Dayton, August 6.—The entire village of Osborn, in Greene county, will be bought by the conservancy district directors, for a sum no less than one and one-half million dollars. Osborn has about 400 families and a population of 1,000.

The conservancy directors figured that the cost of protection to the town by the building of a storage reservoir would be more than the purchase of the village.

Property owners of the village have agreed to the purchase of their community.

## DIRIGIBLE DROPS INTO THE SEA

By Associated Press.

Rome, August 6.—An official statement today says an Italian dirigible balloon, after bombarding the Austrian fortress of Pola, fell into the sea from some unknown cause, and the members of the crew were made prisoners.

## HINT THAT CARRANZA WILL BE LEFT OUT IN THE COLD

By Associated Press.

Washington, August 6.—The six Latin-American diplomats working with the American government to bring peace to Mexico, had a series of conferences among themselves today before they resumed their conference at the State Department.

They covered their deliberations with the same secrecy as was thrown about yesterday's meeting.

General Carranza's refusal to meet the other factions in a peace conference was the first obstacle to be disposed of.

Secretary Lansing conferred with

Brigadier General Hugh L. Scott, chief of staff of the army, and Assistant Secretary Breckenridge. Their meeting revived a report that General Scott might be chosen to persuade General Carranza of the necessity of yielding.

The Latin-American diplomats are understood to favor for president of Mexico, some man who will represent the great majority of Mexico's inhabitants who are not fighting under any military leader.

Secretary Lansing said there might be some public announcement tonight, dependent upon developments.

## SCOTT LEAVES FOR EL PASO

By Associated Press.

Washington, August 6.—Major General Hugh L. Scott, chief of staff of the United States army, accompanied by a member of the general staff, leaves Washington at 6 p. m. today for El Paso, Texas, to confer with General Francisco Villa and other revolutionary leaders there, regarding the Mexican situation.

## WILL SEND 900 MORE MARINES

By Associated Press.

Washington, August 6.—Nine hundred marines will be sent to Haiti Monday on the cruiser Tennessee, it was said at the Navy Department.

The force is not increased because of any change in the situation, but to lighten the work of those already there from the effects of the tropical climate.

## ASK HEARING BE POSTPONED

By Associated Press.

Columbus, August 6.—Finding the case of greater scope and presenting greater complications than they had expected, attorneys for the mining interests in the hearing before the Public Utilities Commission today at noon, asked that a recess be taken until August 17, which was agreed to by the railroad interests and granted by the commission.

At that date, the miners' attorneys said, they expected to go on

through with their case without delay.

It now seems that public sentiment in favor of settling the disagreement between the railroads and the operators rushed both sides into the hearing too quickly, and that neither side was as well prepared as it should be.

## CRIMINAL LYNCHED

By Associated Press.

Shawnee, Okla., August 6.—Ed Berry, negro, charged with two cases of criminal assault and suspected in connection with ten others that have occurred here in the last three years, was taken from of-ficers today and hanged to a telephone pole, at the scene of one of his alleged crimes.

When the rope was adjusted around his neck, he was questioned about the crimes and asked if he were guilty. In each instance he nodded his head affirmatively. In every case the negro's victim was a white woman.

## WILL TEST VALIDITY

Columbus, August 6.—Despite the ruling of the attorney general last night that the new civil service act was validly passed by the General Assembly, suit to test it in the courts will be instituted by the Association of Civil Service Employees, according to an announcement today.

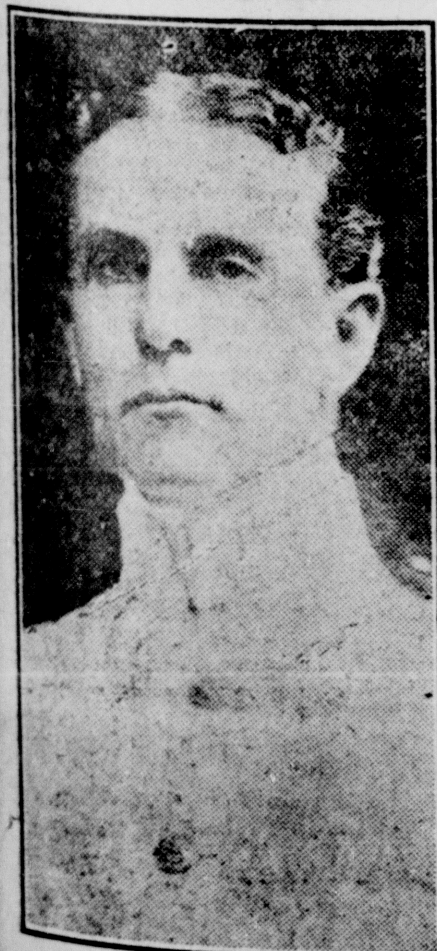

The special act of the General Assembly, which attempts to relieve from taxes property injured by flood, fire or other agency, is not valid, according to an opinion given out by the attorney general today.

## NEW ANTISEPTIC IS DISCOVERED

Paris, Aug. 6.—Dr. Alexis Carrel of the Rockefeller institute of medical research and Dr. Henry D. Dakin of the Lister institute have discovered, after exhaustive experiment at the Compelgne military hospital, what they claim to be the ideal antiseptic. The most powerful antiseptic known to science is hypochlorite of lime, but its use is injurious to the tissues, owing to its acidity, and it does not keep. Drs. Dakin and Carrel have found these two defects are remedied, respectively, by the addition of carbonate of lime and boric acid. Wonderful results have been obtained with the new antiseptic, and it applied in time it is said to make infection in wounds henceforth impossible. Professor Landouzy explained the new antiseptic to the Academy of Science, whose members agreed that the discovery will be of great importance in surgery.

## POLITICAL ANNOUNCEMENTS

To the Republican Voters of Washington C. H.

I am a candidate for renomination on the Republican ticket for the office of City Solicitor, and would appreciate your support at the primary, on August 10th.

## HUNDREDS WATCH THE BIG HOOK AT HERCULEAN TASK

The last of the wreck at the B. & O. and C. H. & D. crossing was cleared away early Friday morning when the monster steel pullman coach was lifted from its place in the ditch back upon the track and moved away. It will be sent to the B. & O. car shops at Chillicothe for repairs.

A large crowd watched the work of clearing up the wreck; saw the "big hook" lift the engine from its resting place and replace it upon the track and with equal ease life the overturned steel pullman coach back into place upon the rails.

The crossing was cleared and repaired so that traffic was resumed about three o'clock Thursday afternoon.

Conductor J. J. Doty, of Covington, Ky., is now in St. Elizabeth Hospital in that city, and his injuries are worse than at first thought. Internal injuries and a great cut across the head were sustained by Conductor Doty.

Every precaution will be taken to prevent a recurrence of such a disaster, but with extra precaution the crossing will remain a dangerous one at best.

## A NEW MECCA

The farm of Mr. J. W. Rapp, between South Solon and Sedalia and three miles north of Bookwalter, is reported to have become the central point of attraction for a large surrounding territory, because of a wonderful well of water recently drilled thereon.

People come from far and near with burning thirsts, jugs, bottles, and all manner of receptacles in which to carry away the life-giving fluid. The well stands 126 feet deep and the water rises to within six feet of the surface of the ground. Those who have used the water declare that it smells, tastes and is in quality almost identical to the water of the famous Sulphur Lick Spring in Ross county. Mr. Rapp's well bids fair, by reason of medicinal values, to become a much frequented resort.

## LITTLE INTEREST IN PRIMARY ELECTION

Very little interest has been manifested in the approaching primary election which is to be held Tuesday of next week.

The voting places will be announced later.

## FUNERAL SERVICES LARGELY ATTENDED

The funeral services of Mr. J. F. Weaver, one of the highly esteemed older residents of the county, and father of County Commissioner Edwin Weaver, were very largely attended at the family residence near Selden, Thursday afternoon at half past one o'clock.

A number drove out from Washington and from different parts of the county.

Rev. McKay, a former pastor of Mr. Weaver, conducted an effective service and favorite hymns of the deceased were sung by a sextette.

A long line of carriages filed to the Washington cemetery, where the interment was made.

The pallbearers were Messrs. Wm. Frayne, J. B. Mark, T. T. Beatty, Clyde Hyer, Carl Mickle and George Cline.

## SMALL CROWD ATTENDS PICNIC

The annual school picnic of Jefferson township was not so well attended as usual, Thursday, owing to the extremely cool weather and the fact that so many persons were very busy with their work.

However those who attended enjoyed a most delightful day in the beautiful grove on the Bush farm near Jeffersonville. The Milledgeville band furnished music, and a very interesting program was carried out.

## SALE COMPLETED

The lands belonging to the estate of the late Michael Lininger were sold at auction Thursday and netted nearly \$42,000. These lands comprised about 335 acres, situated near Johnson's Crossing. As previously stated the home farm of 200 acres was bid in by Jesse and Chas. Lininger at \$128 per acre.

The Hess Road farm of 135 acres was sold to John Lininger at his bid of \$120 per acre.

## GAIL KANE

Who is the most beautiful Girl on The Screen?—Many Say Gail Kane.

Every now and then the old argument breaks out afresh as to who is the most beautiful girl acting in motion pictures. Rival film manufacturers through their various publicity men argue vehemently as to the merits of their respective candidates, for on a delicate question like this, bias is the publicity man's middle name. Let us whisper it gently,—some of those very ladies whose charms are so loudly extolled are not the raving beauties in real life that we are led to believe. In the case of one of them, however, "the half has not yet been told," as the Queen of Sheba said,—Miss Gail Kane, who stars in "Via Wireless," the well known play by Paul Armstrong and Winchell Smith, now being put into pictures by Pathe, is a stunning beauty whose charms need no qualification.

Miss Kane was born in Philadelphia and if there were many more at home like her, Philadelphia would soon have a vast increase in its male population. Tall, beautifully figured, splendidly gowned and with a peaches and cream complexion mere man can be reckoned upon to follow her in droves like the famous rats of the Pied Piper of Hamelin.

This is Miss Kane's first engagement with Pathe. She comes to her picture work with a splendid reputation gained from leading parts in "The Model", "Anatol", "Seven Keys to Baldpate", "The Miracle Man", and "The Hyphen", all Broadway successes.

## CLIFTON CRAWFORD

Noted Broadway Star Joins Pathe Forces—To Star in "The Galloper."

Another famous Broadway favorite has cast his lot to moving pictures. Donald Mackenzie announces that he has signed Clifton Crawford to play the lead in "The Galloper", the great Broadway success of Richard Harding Davis, which is now being produced for Pathe at their Jersey City Studios.

Melville Stewart, who is now playing in the "Follies of 1915," will support Mr. Crawford. The rest of the cast is also decidedly strong.

Mr. Crawford held off a long time before consenting to sign up for the silent drama, but it was the tempting contract offered by Mr. Mackenzie which caused him to decide to enter the field.

Born of actor parents in Edinburgh, Scotland, Mr. Crawford took up the stage at an early age, and after appearing in small parts for some time, became a great favorite in the English music halls. Later he came to America and played in vaudeville, where he always appeared as a headliner. Later he appeared in such noteworthy successes as "The Peasant Girl", "The Quaker Girl", and "The Three Twins." After starring for three seasons in the last named production, he made a tour of the world, and thereby earned the sobriquet of "the man who put a belt of smiles around the world."

Mr. Mackenzie's production will be released in the early Fall, and will be in five reels.

The Corn Crop

From prospects of "bumper" wheat crops the people of the nation, both those directly interested and those indirectly interested, are now occupying their moments, devoted to quiet contemplation, in speculating on the "bumper" corn crop.

Even our substantial friends, the agriculturists, who never permit themselves to become overly enthusiastic about crop prospects are admitting that the prospect that there will be a big corn crop safely covered up in the shocks this fall when the frosty nights come along, are bright indeed.

(Of course we must remember that there is a large number of fields where the corn has been drowned out and others where the weeds have choked the young corn until it will not be worth cutting.

The acreage of corn totally destroyed by floods and weeds is unfortunately large and means, of necessity, a big loss to many individuals.

Speaking generally the corn crop promises to be enormous and the yield to the people as a whole a vast amount of wealth.

The crop seems now to be in danger of destruction only by unprecedented floods or hurricanes.

While the wheat crop was not, at harvest time, all that early spring promised, the corn crop, from present indications will more than make up any shortage in the evenness of the forms attributable to a wheat shortage.

The Teaching of Experience

Many of the really good and wholesome things of life pass unnoticed and unappreciated because the school of experience so frequently grants its diploma too late.

There are many people past and gone forever whose fine qualities, whose genius and whose charming peculiarities would have been more appreciated had we, at the time they were with us, but learned by experience how really good they were.

Much could be learned from those of our associates who now receive but little more than passing thought, had the years of experience that are to come after, taught their lesson and educated us, to realize our opportunity and the real worth of our associates.

That's the reason we so desire a return of the good old times and the good men and women of our earlier acquaintance.

There are just as good men and women now as there were years ago, the times are just as good now as they were "in the good old days" but experience has not taught us the value of that which we possess.

The same rule holds good in almost every walk of life. We see the beauties of life and realize the greatness of our associates after they are behind us. We accept our opportunities and our privileges as a matter of course paying little heed to their importance until they have passed us forever.

Our experience, it sometimes seems, would bring us more happiness if it came to us earlier in life.

Patriotic Duty of College Students to Take a Course In Military Training

By HENRY L. STIMSON, Former Secretary of War

Photo American Press Association.

THE most vital of all shortages in the military establishment of the United States is the shortage of trained men fit to be the officers of our citizen army. That is the shortage which in the United States transcends and exceeds all others.

TODAY THERE ARE FEWER THAN FIVE THOUSAND OFFICERS IN THE REGULAR ARMY, EXCLUDING THE MEDICAL CORPS, BUT INCLUDING ALL OTHERS OF ALL AGES, ALL RANKS, ALL MANNER OF SERVICE AND DETAIL.

At the same time upward of nine hundred thousand young men reach military age in the United States every year, and it is a conservative estimate to say that one hundred thousand of such young men are finishing courses in our universities, colleges, high schools and other institutions of learning.

The students' military instruction camps which have been instituted during the past two years are the first steps taken by our government to remedy this great shortage in officers and to make available for this country in case of need this enormous force of young men. Surely this opportunity to serve should appeal to every patriotic young man in the country.

IT SHOULD BECOME THE NORMAL AND REGULAR AND PROPER THING FOR THE AVERAGE COLLEGE MAN TO DEVOTE ONE OR TWO OF HIS SUMMER VACATIONS TO THIS DUTY.

Poetry For Today

LOVESIGHT.

When do I see thee most, beloved one?  
When in the light the spirits of mine eyes  
Before thy face, their altar, solemnize  
The worship of that Love through thee made known?  
Oh when in the dusk hours (we two alone).  
Close-kissed and eloquent of still replies,  
And my soul only sees thy soul its own?  
O love, my love! if I no more should see  
Thyself, nor on the earth the shadow of thee.  
Nor image of thine eyes in any spring.—  
How then should sound upon Life's darkening slope  
The ground-whirl of the perished leaves of Hope.  
The wind of Death's imperishable wing?  
—Dante Gabriel Rossetti.

Scene Painting.

In the past half century and more, especially since the improvement of the electric light, scene painting has become very elaborate and very expensive. Instead of being kept in its proper place as the decoration of the drama, as a beautiful accessory of the action, it has often been pushed to the front, so as to attract attention to itself and thereby to distract attention from the play which it was supposed to illuminate. Shakespeare has been smothered in scenery, and the art of the actor has been subordinated to the art of the scene painter.—Brander Matthews in Scribner's Magazine.

Phonetic Spelling.

Phonetic spelling was evidently in fashion in the sixteenth century, when even Shakespeare could not spell his own name consistently. There is a letter dug from the correspondence of a lady of the sixteenth century in the book of the "Cotswood Family"—the Hicks-Beaches. Juliana writes—it is a matter of debt between the cautious widow and "My lord a Kalder"—"My lord Ammatil and your wife I honour and love, but your false swearing and promise I haterle a pore." What she really meant was "utterly abhor."—London Telegraph.

It requires a half score of European trips merely to skin the surface of things over there, so the one who vows to "see America first" has years of hiking and pleasure coming.

The man who can't do it always criticises the way the other fellow is doing it.

Luke McLuke Says

The trouble with a loser is that he always goes and loses more in an effort to get even.

The easiest way to get a man mad is to tell him that he hasn't any right to get mad.

The reason why mother knows that daughter does not flirt is because mother always flirted when she was daughter's age.

An hour is a whole lot longer to loaf than it is to work.

Every now and then you meet a man who has a bad habit of bragging that he hasn't any bad habits.

What has become of the old fashioned carpet tack that the old fashioned man who used to walk the old fashioned baby at night used to step on?

One good thing about peace is that it gives us time to prepare for war.

Any old kind of a man will do for a husband. But a woman is hard to please when she is selecting the wall paper for the house after she is married.

The old fashioned man who spent all his time trying to invent a non-refillable bottle now has a son who spends all his time emptying a non-refillable bottle.

Once upon a time a married man offered his wife \$10 without even being asked for it. And the corner said that her death was caused by some mysterious shock.

Tell a man that he is working himself to death and that he needs a long rest, and he will go around town and tell everybody what a brainy fellow you are.

No matter what the loss was and no matter how much the insurance was, no man will ever admit after a fire that his loss was fully covered by insurance.

STAGE STARS FALL FOR CAMERA'S LURE

CHANGE FROM "MOVIE" TO "PHOTOGRAM" BRINGS MANY INTO NEW FIELD.

THE SCREEN'S WIDE SCOPE

Plays Presented in Photo Form Overcome Limitations of Spoken Drama —Pathe Announces Conversions.

It was only a short time ago as time is reckoned, since the stars of the stage spurned the advances of the motion picture manufacturers. Considering the "movies," as they contemptuously termed the film drama, as a cheap and entirely ephemeral form of amusement they considered acting in them as beneath their dignity and preferred thirty week contracts at \$200, to fifty-two weeks playing in pictures at larger figures. Today what a difference. One by one, at first apologetically, but now boldly to the sound of figurative trumpets, the great names of the stage have gone over to the "silent drama."

Bruce McRae.

Here is a list of popular stage favorites recently secured by Pathe which illustrates the trend:

Rhys Alexander, Edwin Arden, Richard Carle, William Courtleigh, Jr., Clifton Crawford, Arnold Daly, Lione Barrymore, Frederic de Belleville, Katherine Brown-Decker, William Elliott, Max Figman, Wm. Riley Hatch, Gail Kane, Sheldon Lewis, Lillian Lorraine, Fania Marinoff, Bruce McRae, Bliss Milford, Lolita Robertson, Jessie Ralph, and Melville Stewart.

Just one of those famous names attached to a photoplay two years ago would have made a sensation and yet the house of Pathe calmly announces now that other big stars will be signed in the near future!

The demand of the hour for efficiency is a hopeful sign, efficiency in every form of activity. People in this favored land have always been as profligate of time as of nature's bounties, and after generations of go-as-you-please activity it was time to hark back to the axioms "Don't scatter your powder" and "Hit the nail on the head." Efficiency looks continually to the end sought and picks up dropped stitches along the way. When tools and implements are left where last used at quitting time valuable moments are lost getting started right next day. "A place for everything and everything in its place" is a good rule in shop, office and store, as well as in the thrifty housewife's kitchen. Red tape system may be carried to absurd lengths, yet in the long run it pays to clean things up as we go along.

# FOURTH REGIMENT WILL GO INTO CAMP FIRST OF WEEK

Company M Leaves This City Monday Morning for Week Encampment at Yellow Springs—Entire Fourth Regiment Will Reach Camp By Noon Monday—General Orders.

The Fourth Regiment, O. N. G., of which Company M is a part, will go into camp at Yellow Springs Monday and remain one week, during which the troops will be put through regular field service, fight sham battles and undergo inspection and review.

The soldiers will assemble at the Armory, Sunday afternoon and spend the night there in readiness for the departure on the C. H. & D. at 9:24 Monday morning. The train will arrive in Xenia at 10:29 and the baggage of Company A of that city will be loaded in the baggage car provided for Company M. The trip to Yellow Springs will then be made over the Pennsylvania lines.

General Orders issued to the officers of the Regiment state that:

"In boarding cars each company will enter the front of its car in column of files and march to the rear of the car before halting to dispose of equipment. In detraining, each company will leave its car by the

rear door and form column of squads at the side of the car with head of column near front of car.

"Beginning August 9th Captain Frank L. Oyler will act as inspector and instructor of the Guard. He will also act as Officer of the Day until Guard is changed on evening of August 9th.

"The senior officer of each section of the trains will be in command of his train enroute and will attend to Guard Duty in the absence of the Officer of the Day.

"Immediately upon arrival at Yellow Springs, each Company Commander will detach four men to Regimental Quartermaster for handling of baggage and pitching office, store and other tents and other necessary work. Two line officers will be detailed with this detail.

"The Regimental Quartermaster and two men and the Regimental Commissary and Sergeant will proceed to Yellow Springs on Sunday, August 8th for discharge of preliminary duties. Lieutenants Grave, Sheldon and Huston will load quartermasters' baggage at Columbus and attend to all details relating to entraining troops.

"Bed sacks will be carried for enlisted men.

"Attention is called to Standing Camp Orders, this regiment, insofar as same apply."

# WOMAN HELD IS FROM THIS CITY

It has developed that Mrs. Mollie Smart, who, in company with George Padgett, a taxicab driver, is held in Xenia for contributing to the delinquency of Mina Donaldson, 14-year-old daughter of Wilson Donaldson, of near Frankfort, has been making her home in this city for sometime, and was on her way to Springfield when the crime was committed.

It is charged that the woman saw the girl at the depot in Xenia and placed her in Padgett's cab, and the child was detained over night, drugged and when found next day was in a pitiable condition.

Padgett was arrested on a charge of criminal assault and the Smart woman was held as an accomplice in the crime. They are now in the Xenia Jail and their preliminary hearing has been set for Saturday afternoon. Their bond was fixed at \$600.

Regarding the affair the Springfield Sun says, in part:

Mrs. Smart told her story to the police of that city, saying that she had lived in Springfield for 14 years until domestic troubles caused a separation from her husband. She had resided in Washington C. H. for some time. She said she had started to Springfield, where she was to sew. She told the police that she met the girl on the train and when her brothers did not meet the child at the station she attempted to help the girl find them. She said she had nothing to do with the abduction of the girl, and she furthermore said she saw nothing of an assault upon the girl.

After hearing her side of the story Chief Canaday asked, if such was the case, why she had kept the girl out all night and a part of Sunday and

then attempted to get her away to Springfield. The woman, it is said, made no answer.

The case is attracting more attention than anything that has come up in police court of Xenia for several years. Padgett refuses to talk about the case.

# ELECTRICAL EXPERT BACK IN WASHINGTON

Mr. H. Whitford Jones, Cleveland electrical engineer retained by the city, arrived here late Friday afternoon. Mr. Jones has with him revised plans for the lighting of the city, containing the changes made by the special committee of council when Mr. Jones was here two weeks ago.

It is expected that Mr. Jones will put the revised plans before the members of council, together with an estimate of the cost of the service.

# SITE COMMITTEE MEETS AT CHILLICOTHE TODAY

# HORSE FALLS DEAD INJURING DRIVER

Dr. W. A. Barber, of Springfield, well known horseman of this county, was seriously injured when his bay trotting mare, Edna the Great, fell dead on the track during the Weeman stake race at Toledo Thursday. Barber is in a Toledo hospital and it is feared that he may not recover.

The mare dropped dead near the starting point. The fall threw the driver from the sulky, head first onto the track.

# MUCH MACADAM IS AVAILABLE

In removing the material on East Court street to make way for the brick paving, a vast amount of crushed stone and gravel has been uncovered and is being used in rebuilding all nearby alleys and wherever such material is required.

Some of the alleys had received no attention for many years, and will now be in good condition for years to come. Hundreds of loads of crushed stone, gravel and earth are being removed and deposited where it will do the most good.

# WORK OF VISITING NURSE DURING JULY

The report of Miss Anna L. Sutton, Welfare Association visiting nurse, for the month of July, submitted and approved by the board, is as follows:

# CHIEF ELECTRICIAN IN SAGINAW THEATER

Wilbert Smith, who has been assisting his brother J. Edmund Smith in the theater business here for the past few weeks, left Friday morning for Saginaw, Mich., where he is to take the post of chief electrician at the Jeffers theater, opening next week for the fall and winter season.

He was accompanied by Mr. Robert Search, stage manager of the theater, who has been his guest for the past few days.

# WILL COMMENCE WEST COURT JOB ON MONDAY

A huge steam shovel was moved from Washington avenue to West Court street Friday. Monday the shovel will begin excavation of the street, preliminary to paving with prick. Heffner & Son of Celina, who are doing the Washington avenue paving, have the contract.

It was stated by the contractors that the street would be put in temporary condition to receive the heavy traffic of fair week.

# ROUNDING UP BUNCH OF YOUNG POP LOVERS

Several alleged youthful pop lovers were being rounded up by the police Friday, and at three o'clock five youngsters had been apprehended.

It is claimed the boys, or part of them, pilfered pop from the bottling house and also from refrigerators.

The youngsters range in age from eight to 14 years.

# LEOLA M'KINNEY WINS \$300 RACE AT XENIA

Leola McKinney owned by C. W. Mark of this city took three straight heats in a 2:18 trotting event at the Greene county fair, Xenia, Thursday. There were five starters and the best time was 2:17 3/4. The purse was \$300.

Not For Strangers.

"What in the world does that mean?" asked the traveler through a sparsely settled region on the Cape. "There's no such place on my road map."

The man whom he addressed first took a leisurely survey of the traveler and his horse and then turned his eyes toward the weatherbeaten sign, which bore the single word "Tolpomp." "That ain't a name," he said, with dignity; "it's just an indication. It means 'To Long pond one mile.' It's plain enough to folks from nearby that's hunting for the pond, and we don't reckon on strangers taking much interest."—Youth's Companion.

CHAS. BISH JOHNSON.

To the Citizens of Washington C. H., Ohio: I wish to say, as a Republican candidate for nomination and election for Mayor, that my chief aim is for a good, clean administration, with strict enforcement of all laws, as they appear on the statutes, with partiality to none.

As yet I have not thought of any appointees for any position but I hope to be able to find men to fill such appointments, who will assist me in making Washington a good law abiding city.

If I am elected, I will go into office with but one promise and this promise is to all, viz:

"STRICT LAW ENFORCEMENT"

Your support will be appreciated at the Nomination next Tuesday, August 10th.

Sincerely,

CHAS. BISH JOHNSON.

# BENEFITS FROM BOOKS.

Traveling Along the Roads That Lead Us Into Other Worlds.

The benefit of literature can hardly be overestimated. Books enlarge a man's horizon. They raise a mirage of water brooks and date palm to travelers in the desert. They are "the sick man's health, the prisoner's release." Shut within a narrow routine of dull necessity, sad at heart in a world where wrong triumphs, where beauty has no assurance of respect, where humanity toils terribly merely for its daily bread or the satisfaction of trivial appetites, the earthly pilgrim need no more than pick up a book and, lo, he steps into another world.

Here he is free from sorrow and care, free from the burden of his body, from envy, jealousy, contempt, self satisfaction, from vain regrets, from wishes that can never wear the livery of hope, from narrowness of soul and hardness of heart.

He may mingle in the society of the good and great; he may listen to the wise man and the prophet; he may see all the conditions of human happiness and misery; he may watch the human spirit in its strife with circumstances nobly conquer or basely succumb; he may go down through the "gate of a hundred sorrows" or accompany Dante and Beatrice through the spheres of paradise.—Atlantic Monthly.

Hard Water.

The streams of water used in hydraulic mining are said to be so swift that if one tried to back into them with a sword the weapon would fly to pieces. The water is moving so rapidly that it has no time to yield beneath the stroke and in consequence is like a bar of iron.

A small bag cannot be made to contain what is large. A short rope cannot be used to draw water from a deep well.—Chinese Proverb.

ACCIDENTS OF FORTUNE.

Incidents That Led to the Rise of Two Famous Dramatic Stars.

More than 200 years ago a dramatist, sitting in the bar of a London tavern, overheard a girl in the next room reading aloud from a play book, and he was so much pleased by the sound of her voice and the fluency and sprightliness of her delivery that he sought acquaintance with her, obtained her confidence and opened for her the way to a successful dramatic career. That girl, a dramatic genius thus accidentally discovered, was Anne Oldfield, who adorned the English stage for twenty-five years, whose ashes rest in the cloister of Westminster abbey and whose name is one of historic renown.

A theatrical manager in Cincinnati in the seventies, having planned to produce a popular comic opera with a chorus composed of pupils from the public schools, selected Sarah Frost, then a girl about twelve, perceived her theatrical aptitude and provided the opportunity for its development. The manager was Robert E. J. Miles, and under his direction she made her first appearance on the stage and passed her juvenile novitiate.

Her stage name at first was Fanny Brough. Later she adopted that of Julia Marlowe.—William Winter in Century Magazine.

A Master of One Art.

"Have you ever loved any other girls?" breathed the maiden tremulously.

"Well, I have attempted a few kindergarten, prep school and college courses in affection," responded the man in the case, "but this represents a real purpose to get rid of my bachelor's degree."

Whereupon he took a little firmer hold.—Richmond Times-Dispatch.

Professional Reticence.

"Did that man quote you correctly in that interview?"

"I can't tell," replied Senator Sorghum.

"Don't you know?"

"Yes, I know, but I can't tell until I have learned how my constituents like the article."—Washington Star.

# RIGA WILL FALL NEXT IS BELIEF

London Experts Figure on Kaiser's Next Move.

POLISH CAPITAL IS STRIPPED

German Invaders Find Little of Value in City After Russian Army Makes Its Exit—Forces of Grand Duke Nicholas Fighting Desperately to Avoid Falling Into Trap Set For Them by Teutonic War Leaders.

Petrograd, Aug. 6.—After blowing up all the bridges across the Vistula, the Russians in the Ivangorod district have crossed to the right bank, according to the official statement. The communication does not mention the fall of Warsaw.

London, Aug. 6.—With Warsaw evacuated by the Russians and in the hands of the Germans, military experts here are now predicting the same fate for Riga, the Baltic port on the north, in the near future, the arrival of the German army within ten miles of that city being the cause of the civilian population departing.

While to the Bavarians commanded by Prince Leopold has fallen the honor of taking over Warsaw in the name of the German emperor and his consort, who are expected to make a state entry within a few days, the real conquerors are the troops fighting under Field Marshal Von Hindenburg, along the Narw river to the northeast; the Austro-Germans, who crossed the Vistula to the south of the city, and the armies of the Austrian Archduke Joseph Ferdinand and the German Field Marshal Von Mackensen, which are advancing northward between the Vistula and Bug rivers.

The Russians are fighting desperately and stubbornly to check the progress of these four armies and have had several successes, inflicting heavy losses on their pursuers; but they are being steadily pressed back, which made the longer occupation of the Warsaw-Polish salient a hazardous undertaking.

Even now, although the steadiness of the Russian troops and their fierce counter attacks have gained much valuable time for them, it is problematical whether the whole Russian army will succeed in reaching the new positions chosen for it, or whether, if it should get there, it will not find those positions turned by the Austrians, who have crossed the Bug southeast of Chelm, and the Germans under Generals Von Scholz and Von Gallwitz, who have crossed the Narw.

At the northeastern end of the line the Russian communications are further threatened by General Von Buelow, who is advancing toward Dvinsk, on the Vilna-Petrograd railway. Indeed, the Austro-Germans have set three traps to catch and destroy the Russian army. None of them was sprung, but one was so near to closing that Grand Duke Nicholas was forced to evacuate Warsaw and now is fighting with all his might to prevent the others from cutting off his retreat.

From refugees who left Warsaw some days ago and have arrived at Moscow it has been learned that Warsaw, even at that early date, had been denuded of virtually everything that might be useful to the Teutons. Factories had been stripped of their machinery and all war stores moved into the interior of Russia and the government of the city left to the Polish population.

Since early in May, when they started their great counter offensive in western Galicia against the Russians, who were debouching through the Carpathians onto the plains of Hungary, the troops of the German powers have cleared the Russians out of Galicia, with the exception of a strip of territory in the southwest, have recaptured Przemyśl and Lemberg, taken Lublin, Chelm and Warsaw, and are in military occupation of virtually the whole of Poland.

What their next move will be is a matter of conjecture. Some military observers believe they will continue to attack the Russians in the hope of finally crushing them, a task which it is considered is rendered difficult by the fact that the Russians in their retreat lay the country waste, making it necessary for the invaders to bring up every ounce of food required for their army.

Others of the observers think Serbia will be attacked, so as to impress the Balkan states which remain neutral, while still others look for a big offensive against the Franco-British-Belgian line in the west.

All of the observers are of the opinion that wherever the new operation is begun it will be on a big scale.

The Germans also have had local successes in the west, recapturing on the crest line in the Vosges a portion of the trenches which the French took from them some time ago.

# MUST FIGHT OR GO UNDER

London, Aug. 6.—Lloyd-George, acclaimed by enthusiastic thousands of his Welsh compatriots at the Banger eisteddfod, delivered an inspiring address in the native tongue of Wales.

"What is the good of asking, 'Is it to be peace?'" he said. "There is no peace because an unclean spirit possessed the rulers of a great nation."

"Some of us thought that the religious revivals of the eighteenth and nineteenth centuries had broken the fighting spirit of our race. No real religion ever yet broke a nation's spirit; it disciplines its strength, it elevates its purpose, and when justice is menaced that nation becomes more formidable than ever."

"Today we have a greater army from Wales alone than Wellington commanded at Waterloo, and they have not yet ceased coming. I have no doubt that, however long victory may tarry, it will ultimately come. We may have to wait for the dawn. The eastern sky is dark and lowering and the stars are clouded over. I regard that stormy horizon with anxiety but with no dread. I can see the color of new hope beginning to purple the sky. The enemy in their victorious march know not what they are doing. Let them beware, for they are at last arousing Russia. With their monster artillery they are only shattering the rusty bars that fettered the strength of the people of Russia. You can see them shaking their powerful limbs free from the stifling debris, preparing for the conflict with new spirit. Austria and Prussia are doing for Russia today what their military ancestors effected for France, just as unwittingly. They are hammering the sword that will destroy them and freeing a great nation to wield it with a more potent strike and a mightier sweep."

"We must fight on or forever sink as a people into impotent obscurity. Our own task is becoming greater as the days roll past. It is to see that the suffering and the loss shall not be in vain that the wheat, not tares, shall be sown in the bleeding soil, and in due season we shall reap if we faint not."

The address made a wonderful impression, and throughout the minister of munitions was interrupted with cheers, and as he finished, spontaneously there arose a great chorus from thousands of throats.

# GREAT FLAG IS UNFURLED

Canton, O., Aug. 6.—Speaking at the dedication here of the world's largest flag, Governor F. B. Willis referred to the United States foreign policy and urged that Americans stay at home to prevent repetition of outrages similar to the sinking of the Lusitania.

"Our passion is peace," he said. "Let Americans stay at home while the senseless war dogs fight in Europe. Let us stay at home, where we belong, and attend to our own business."

The flag has been in the making for seven months. Women of the city took turns in sewing together its gigantic stars and stripes. Unfurled before a crowd of 10,000, it showed its 3,100 square feet. Its stars are as broad as a man is tall and its stripes are the length of a city block.

# PRESIDENT IS READY FOR FRAY

Expects Warm Opposition to His Defense Program.

BRYAN STRENGTH ADMITTED

Executive Will Consult With Heads of Naval and Military Committees in Hope That Plan For Securing Appropriations Can Be Completed by Time Congress Settles Down to Business—Kitchen Opposes Increases.

Cornish, N. H., Aug. 6.—President Wilson is laying his plans for coping with the political opposition to the administration's national defense program which is anticipated from the Bryan following and other factions in congress at the next session.

The president's advisers are aware that his program for an elaborate reorganization and increase of the army will meet with bitter opposition within the Democratic party in congress, and an important feature of his proposition for the forthcoming session is a provision for smothering this opposition.

The president disclosed that he is planning to hold a series of conferences with the chairmen of the naval and military committees of the house and senate following his return to Washington. He is determined to secure the support of the leaders of these committees for his program at the outset of the session, so that by the time the session gets under way he may be enabled to devote his attention to the opposition to the increased armament projects which is certain to develop within the ranks of the Democratic membership.

Mr. Wilson said that although his plans for the national defense program are indefinite at this time, he will consult the naval and military affairs chairmen in order to map out the increases which the president has practically committed himself to already. There is no tendency in their minds to discount the strength of the following Mr. Bryan will be able to muster in the house, where a number of the present leaders are still regarded as his friends.

Opposition is looked for in other quarters, however; for one thing, Representative Claude Kitchen of North Carolina, who is slated for the chairmanship of the ways and means committee and the majority leadership, already has given out an interview placing himself on record as opposed to a big battleship program. Another disquieting factor was the action of Representative Hay of Virginia, chairman of the house committee on military affairs, in giving out a similar interview with respect to the army increases.

# POLICE ARE SEEKING ASSAILANT OF GIRL

Fostoria, O., Aug. 6.—Miss Blanche McCandless, twenty, daughter of Mr. and Mrs. Edward McCandless, was attacked while working at the home of her sister, Mrs. LeRoy Dillon, two miles east of the city, by an unknown man, who threatened to kill her. She was found an hour later by her sister, in the pantry of the farm residence, bound with a clothes line and her head wrapped in a table cloth. Marks of the assailant's fingers showed plainly on her throat and there was a bruise on her forehead where he had struck her with a clubbed shotgun. She will recover. Police are searching for the assailant, whom Miss McCandless was able to describe.

# GUNMAKERS ARE ON STRIKE

Ilion, N. Y., Aug. 6.—A general strike of the employees of the Remington Arms company was declared as the climax of the walkout since Monday, when the men learned the company would refuse to grant them wage increases of 25 per cent on piecework. The 600 employees remaining in the plant are expected to join the strikers. The strikers say 2,400 of the workers are now out.

# GONZALES IN MEXICO CITY

Mexico City, Aug. 6.—General Pablo Gonzales, chief of the Carranzista forces, entered the capital with his entire army. Three brigades of his troops paraded through the streets of the city while the church bells rang and throngs of people gathered along the route taken by the soldiers. The entrance of General Gonzales ends the uncertainty of the last Carranzista occupation of Mexico City due to the fact that the opponents of the "first chief" spread many rumors to the effect that the Carranzista forces had evacuated the city again. Sponsors for these reports pointed with significance to the fact that General Gonzales remained at the nearby town of Guadalupe.

General Gonzales established his headquarters in the national palace. As head of the military government of Mexico he will begin to transact the business of the government. After the troops paraded through the city food was distributed to several hundred of the poor of the capital.

# BELGIANS POUR INTO AMERICA

New York, Aug. 6.—On the Rydam, in from Rotterdam, were 1,008 Belgians, including 80 children of all ages, from three to fourteen. They were brought here by the Belgian-American relief society. The parents of all but one of the children live near Detroit and the little folk will be sent to them at once.

## Newspaper Advertising

Goes direct to the people and the people constitute the buying public. Newspaper advertising not only

talks but it emphasizes; it has the undivided attention of the reader and covers a field no salesman can hope to reach. There are many

styles in newspaper advertising and the small announcement, which

costs only five cents, is just as effective in its way as the larger one, which costs proportionately more. The benefits to be derived can not

be measured by the size of the 'ad,  
for the very good reason that the  
small, inexpensive announcement  
inevitably proves effective. News

invariably proves effective. Newspaper advertising costs from five cents up to any price the advertiser desires to pay.

### CLOSING DAY OF INSTITUTE

The closing day of the Fayette County Teachers' Institute witnessed a full attendance of the teachers in the county and a large number of members of Boards of Education were present.

One of the chief events of the morning was an interesting address by Prof. Oliver, of the State School Commissioner's office. Miss Rudy, of Dayton, gave an interesting demonstration of teaching the "teenie weenies."

The round table was conducted by District Superintendent Frank M. Allen, proving a most interesting feature of the closing day's session.

A special program Friday afternoon is closing one of the most successful institutes ever held in the county, and the committee which worked untiringly in contributing to the success has been roundly complimented for the splendid institute just closing.

The question of recognition of the Institute by the proper officials, taken up at the Friday morning session, was of particular interest to a great many of the teachers.

## FORMER SECT. OF WAR DEAD

New York, August 6.—(Bulletin)—General Benj. F. Tracey Secretary of War under President Harrison, died this afternoon.

General Benjamin Franklin Tracey, lawyer, soldier, jurist and statesman, has stood prominent in the public eye for more than 60 years. He was born in 1830.

"Some people have called me 'the father of the fighting navy,'" he had said recently. "I won't deny it. I believe I am. I tried to take the Navy Department out of politics and I believe I succeeded."

"at that time," said Gen. Tracey, "the cruiser Baltimore was the largest and strongest ship we had, and she was only a protected cruiser. I saw the necessity of building ships which could fight if they had to."

"What's the use of building a ship that can't run away from a ship it can't whip?" demanded the Secretary in his appeals. The phrase has become historic.

## TREASURER IS EXECUTED

By Associated Press.

El Paso, Texas, August 6.—Arrivals from Chihuahua City today declared that the state treasurer of Chihuahua was executed Wednesday on orders from General Villa.

### A Curious Experience.

Lombroso, the famous Italian criminologist, once had a curious experience. He was in a printing office correcting the proofs in his "Delinquent Man" with the chief reader when on reaching a page which dealt with a young man who, impelled by jealousy, had stabbed his fiancée he made a surprising discovery. The proofreader was this man.

"Suddenly," Lombroso said in telling the story, "he threw himself at my feet, declaring that he would commit suicide if I published this story with his name. His face, before very gentle, was completely altered and almost terrifying, and I was really afraid that he would kill himself or me on the spot. I tore up the proofs and for several editions omitted his story."

### Thunder.

Winter thunder is considered throughout Europe to be of very ill omen, but April thunder is considered to be very beneficial. In Devonshire and other eider counties of England there is a saying that "when it thunders in April you must clean up the barrels"—in readiness, that is, for a plentiful crop of apples. The French consider April thunder to be indicative of a good yield from vineyards and cornfields.

### SAVED HIMSELF, UNAWARE.

Showing How the Eye Sees More Than One Thinks It Does.

Writing on psychological subjects in the Ladies' Home Journal, H. Addington Bruce says:

"From Dr. A. H. of Pennsylvania, one of our well known psychologists, I have received this impressive piece of testimony to the power of the eye to see more than one consciously apprehends:

"Three summers ago, when I was on a visit to my old home town, I took a short cut across familiar fields where a fair growth of weeds covered the ground. I was going along at a rapid gait, with my mind wholly occupied with matters other than my path, when suddenly, quite reflexly, my left foot, instead of going down on the spot where it should, jerked itself over to the left, and I went on fully ten steps before I realized that I had made the sharpest kind of an offset in my path. I wondered what made me do it, turned, retraced my steps and found an adder still coiled and ready to strike, exactly, as I judged, where my foot would have gone."

"Dr. A. H., recognizing the correct explanation of his fortunate misstep, adds:

"During my boyhood summers I used to go barefooted much of the time. Through sad experiences with stubble fields, briar patches and stony paths I learned automatically to pick my way without giving thought to the matter. As a result, I find myself frequently in my walks avoiding obstacles which at the moment I do not consciously discern."

### Angel Coins.

An "angel" was an ancient gold coin weighing four pennyweights and valued at 6s. 8d. in the reign of Henry VI. and at 10 shillings in the reign of Elizabeth in 1562. It took its name from the effigy of an angel embossed on one side.

Mollified.

This really happened in New York the other day:

Displeased Parent—Molly, I find you have been buying three pairs of gloves without my permission. Why did you do it?

Miss Molly (aged twelve)—Why, daddy, I was obliged to have some gloves I hadn't a pair to wear!

Displeased Parent—It was very wrong of you to buy the gloves without asking either your mother or me about it.

Miss Molly—Well, never mind, daddy, dear. They won't cost anything. I had them charged!—New York Post.

The American custom of long distance practice rides for army officers would have prepared the Russian officers to find a safe rear in their great retreat.

Sometimes it is a grave problem for parents what to do with their boys and girls and, again, what to let the young folks do with their old folks.

Judging from the amount of advice urged upon the government at Washington, this must be a nation of inspired sages or inspired idlers.

# RUSS STILL HOLDING CITY 19 MILES FROM WARSAW

## MAIN ARMIES FALLING BACK UPON PREPARED POSITIONS FORMING A MIGHTY BARRIER

**Torch Is Applied to Towns Near Warsaw**  
—Slavic Press Believes Occupation of Warsaw Temporary—Ivangorod Falls and Thousands Are Fleeing Riga, Taking Church Bells With Them—Austrian Archduke and German Prince to Govern Poland—Collective Representations Made to Serbia to Make Concessions That Roumania, Bulgaria and Greece May Join Allies.

By Associated Press.  
Petrograd, August 6.—Novo Georgievsk, nineteen miles northwest of Warsaw, remains in Russian hands today, says the Russian War Office.

The fortress has been prepared for a siege and it already is invested. It is the only fortified position on the Vistula in possession of the Russians.

The immediate causes of the evacuation of Warsaw, according to the war office, were "the advances of the enemy in great force on the roads toward Ostrov, from Ostrolenka and Rozan, on the one hand, and the presence of large forces of the enemy who had broken across the Vistula river between Ivangorod and Warsaw at Matziewitz."

The report also says the Russians are gradually moving back to the positions assigned to them, and it is declared that with the occupation of new positions a serious barrier will be placed against the Austro-German progress toward Brest Litovsk.

The loss of Warsaw had long been discounted in Petrograd, and it caused no excitement. The newspaper comment on the fall of the Polish capital without emotion, referring with regret to its loss, as a necessity

which is regarded by them as being only temporary.

Vienna, August 6.—The occupation of Ivangorod yesterday by Austro-German troops is announced in an official statement from the front.

Petrograd, August 6.—A letter from Warsaw today says the towns of Jirardoff, Groltzi and Blonie all were in flames when the Germans reached them. The invaders are said to have been forced to fight fire so persistently in the advance to the Vistula river, that the Teutonic armies were preceded by detachments of military firemen.

London, August 6.—With the great fortresses of Warsaw and Ivangorod captured, and the fall of Riga, the capital of the Baltic provinces, imminent, the Austro-German onslaught has reached its height in the east, and the next step will be the German emperor's triumphant entry into the Polish capital.

That event is likely soon to be followed by the pronouncement of a united and semi-autonomous Poland, embracing not only the territory wrested from the Russians, but the Austrian crownland of Galicia.

Meantime, the Russian armies are fighting their way back toward Russia proper, inflicting blows on the invaders wherever possible, trying to fepd them off the railways running north, in order that the end of the German nippers may not meet and, enclosing, bring disaster to Russian arms.

The position of the army of Grand Duke Nicholas now is a matter of solicitude, as the occupation of Warsaw is believed to be a prelude to a greater purpose—that of enveloping the retreating forces.

Petrograd reports show the grand duke had retired to the right bank of the Vistula, both at Warsaw and Ivangorod, destroying the bridges at both points and contesting the German advance across the river.

Back of the retiring Russians is the vast morass of central Poland with few railways and primitive roads, making virtually impossible a quick movement of guns and supplies while back of Warsaw the only fortress available as a rallying point for the Russians is Brest Lipovsk.

Thus the Russians are menaced by General von Beulow's column, bending southward, and by Field Marshal von Mackensen's southern army, bending northward.

The fall of Ivangorod proper, forecast in the Russian retirement from the west of the city, is officially reported today in bulletins both from Berlin and Vienna.

Nish, Serbia, August 6.—Another

step in the effort being made to bring about a Balkan agreement so that Bulgaria, Roumania and Greece may be mustered on the side of the entente powers, was taken here today by the ministers of Russia, Great Britain, France and Italy, who made collective representations to the Serbian premier.

London, August 6.—The occupation of Warsaw now is centering attention on a series of important events that are being arranged. First will be the selection of a German governor, possibly a son of the German Emperor, and an Austrian Arch-Duke, who will be vested with authority akin to that which Napoleon gave to his brothers over conquered lands.

Petrograd, August 6.—Ten thousand persons have been leaving Riga, the Baltic capital, daily for a week. Among the objects most carefully removed are church bells.

## CROP REPORT ISSUED TODAY

By Associated Press.  
Columbus, August 6.—The state crop report, issued today, showing the condition of crops August 1, gives ground for still more optimism as to the Ohio wheat crop. It puts the prospect at 111.

## GUARD KILLS PRISON DEMON

By Associated Press.  
Columbus, August 6.—George Bayso, serving an indeterminate sentence from Cuyahoga county for forgery, was shot to death at the penitentiary here this morning by Guard Hostetter, in self defense.

Bayso was attacking his cellmate, Ray Cole, serving ten years from Licking county for shooting with intent to kill. The guard heard Cole's outcries.

When the guard opened the cell door Bayso lunged at him with a piece of steel, sharpened to a point and Hostetter fired. Bayso fell dead.

Cole was stabbed about 20 times. His condition is not serious. Bayso is believed to have become suddenly insane.

## LOOTERS AT WORK IN ERIE

By Associated Press.  
Erie, Pa., August 6.—Troopers of the state constabulary patrolled the flood section today. Sensational rumors of looting during the night kept the police busy.

One man, said to have taken articles from a flooded house, was shot, but not seriously wounded. Another alleged looter also was reported to have been shot.

Intense excitement was occasioned before midnight when, after a heavy rainfall, a man ran through the district shouting "look out, another flood is coming."

## CREW RESCUED

## WILL BUY THE TOWN OUTRIGHT

By Associated Press.  
Dayton, August 6.—The entire village of Osborn, in Greene county, will be bought by the conservancy district directors, for a sum no less than one and one-half million dollars. Osborn has about 400 families and a population of 1,000.

The conservancy directors figured that the cost of protection to the town by the building of a storage reservoir would be more than the purchase of the village.

Property owners of the village have agreed to the purchase of their community.

## DIRIGIBLE DROPS INTO THE SEA

By Associated Press.  
Rome, August 6.—An official statement today says an Italian dirigible balloon, after bombarding the Austrian fortress of Pola, fell into the sea from some unknown cause, and the members of the crew were made prisoners.

## HINT THAT CARRANZA WILL BE LEFT OUT IN THE COLD

By Associated Press.

Washington, August 6.—The six Latin-American diplomats working with the American government to bring peace to Mexico, had a series of conferences among themselves today before they resumed their conference at the State Department.

They covered their deliberations with the same secrecy as was thrown about yesterday's meeting.

General Carranza's refusal to meet the other factions in a peace conference was the first obstacle to be disposed of.

Secretary Lansing conferred with

Brigadier General Hugh L. Scott, chief of Staff of the army, and Assistant Secretary Breckenridge. Their meeting revived a report that General Scott might be chosen to persuade General Carranza of the necessity of yielding.

The Latin-American diplomats are understood to favor for president of Mexico, some man who will represent the great majority of Mexico's inhabitants who are not fighting under any military leader.

Secretary Lansing said there might be some public announcement tonight, dependent upon developments.

## SCOTT LEAVES FOR EL PASO

By Associated Press.

Washington, August 6.—Major General Hugh L. Scott, chief of staff of the United States army, accompanied by a member of the general staff, leaves Washington at 6 p. m. today for El Paso, Texas, to confer with General Francisco Villa and other revolutionary leaders there, regarding the Mexican situation.

## WILL SEND 900 MORE MARINES

By Associated Press.

Washington, August 6.—Nine hundred marines will be sent to Haiti Monday on the cruiser Tennessee, it was said at the Navy Department.

The force is not increased because of any change in the situation, but to lighten the work of those already there from the effects of the tropical climate.

## ASK HEARING BE POSTPONED

By Associated Press.

Columbus, August 6.—Finding the case of greater scope and presenting greater complications than they had expected, attorneys for the mining interests in the hearing before the Public Utilities Commission today at noon, asked that a recess be taken until August 17, which was agreed to by the railroad interests and granted by the commission.

At that date, the miners' attorneys said, they expected to go on

through with their case without delay.

It now seems that public sentiment in favor of settling the disagreement between the railroads and the operators rushed both sides into the hearing too quickly, and that neither side was as well prepared as it should be.

## CRIMINAL LYNCHED

By Associated Press.

Shawnee, Okla., August 6.—Ed Berry, negro, charged with two cases of criminal assault and suspected in connection with ten others that have occurred here in the last three years, was taken from officers today and hanged to a telephone pole, at the scene of one of his alleged crimes.

When the rope was adjusted around his neck, he was questioned about the crimes and asked if he were guilty. In each instance he nodded his head affirmatively. In every case the negro's victim was a white woman.

## WILL TEST VALIDITY

Columbus, August 6.—Despite the ruling of the attorney general last night that the new civil service act was validly passed by the General Assembly, suit to test it in the courts will be instituted by the Association of Civil Service Employees, according to an announcement today.

The special act of the General Assembly, which attempts to relieve from taxes property injured by flood, fire or other agency, is not valid, according to an opinion given out by the attorney general today.

## NEW ANTISEPTIC IS DISCOVERED

Paris, Aug. 6.—Dr. Alexis Carrel of the Rockefeller Institute of medical research and Dr. Henry D. Dakin of the Lister Institute have discovered, after exhaustive experiment at the Compeigne military hospital, what they claim to be the ideal antiseptic. The most powerful antiseptic known to science is hypochlorite of lime, but its use is injurious to the tissues, owing to its acidity, and it does not keep. Drs. Dakin and Carrel have found these two defects are remedied, respectively, by the addition of carbonate of lime and boric acid. Wonderful results have been obtained with the new antiseptic, and if applied in time it is said to make infection in wounds henceforth impossible. Professor Landonou explained the new antiseptic to the Academy of Science, whose members agreed that the discovery will be of great importance in surgery.

## HUNDREDS WATCH THE BIG HOOK AT HERCULEAN TASK

The last of the wreck at the B. & O. and C. H. & D. crossing was cleared away early Friday morning when the monster steel pullman coach was lifted from its place in the ditch back upon the track and moved away. It will be sent to the B. & O. car shops at Chillicothe for repairs.

A large crowd watched the work of clearing up the wreck; saw the "big hook" lift the engine from its resting place and replace it upon the track and with equal ease life the overturned steel pullman coach back into place upon the rails.

The crossing was cleared and repaired so that traffic was resumed about three o'clock Thursday afternoon.

Conductor J. J. Doty, of Covington, Ky., is now in St. Elizabeth Hospital in that city, and his injuries are worse than at first thought. Internal injuries and a great cut across the head were sustained by Conductor Doty.

Every precaution will be taken to prevent a recurrence of such a disaster, but with extra precaution the crossing will remain a dangerous one at best.

## A NEW MECCA

The farm of Mr. J. W. Rapp, between South Solon and Sedalia and three miles north of Bookwalter, is reported to have become the central point of attraction for a large surrounding territory, because of a wonderful well of water recently drilled thereon.

People come from far and near with burning thirsts, jugs, bottles, and all manner of receptacles in which to carry away the life-giving fluid. The well stands 126 feet deep and the water rises to within six feet of the surface of the ground. Those who have used the water declare that it smells, tastes and is in quality almost identical to the water of the famous Sulphur Lick Spring in Ross county. Mr. Rapp's well bids fair, by reason of medicinal values, to become a much frequented resort.

## LITTLE INTEREST IN PRIMARY ELECTION

Very little interest has been manifested in the approaching primary election which is to be held Tuesday of next week.

The voting places will be announced later.

## FUNERAL SERVICES LARGELY ATTENDED

The funeral services of Mr. J. E. Weaver, one of the highly esteemed older residents of the county, and father of County Commissioner Edwin Weaver, were very largely attended at the family residence near Selden, Thursday afternoon at half past one o'clock.

A number drove out from Washington and from different parts of the county.

Rev. McKay, a former pastor of Mr. Weaver, conducted an effective service and favorite hymns of the deceased were sung by a sextette.

A long line of carriages filed to the Washington cemetery, where the interment was made.

The pallbearers were Messrs. Wm. Frayne, J. B. Mark, T. T. Beatty, Clyde Hyer, Carl Mickle and George Cline.

## SMALL CROWD ATTENDS PICNIC

The annual school picnic of Jefferson township was not so well attended as usual, Thursday, owing to the extremely cool weather and the fact that so many persons were very busy with their work.

However those who attended enjoyed a most delightful day in the beautiful grove on the Bush farm near Jeffersonville. The Milledgeville band furnished music, and a very interesting program was carried out.

## SALE COMPLETED

The lands belonging to the estate of the late Michael Lininger were sold at auction Thursday and netted nearly \$42,000. These lands comprised about 335 acres, situated near Johnson's Crossing. As previously stated the home farm of 200 acres was bid in by Jesse and Chas. Lininger at \$128 per acre.

The Hess Road farm of 135 acres was sold to John Lininger at his bid of \$120 per acre.

## GAIL KANE

Who is the most beautiful Girl on The Screen?—Many Say Gail Kane.

Every now and then the old argument breaks out afresh as to who is the most beautiful girl acting in motion pictures. Rival film manufacturers through their various publicity men argue vehemently as to the merits of their respective candidates, for on a delicate question like this, bias is the publicity man's middle name. Let us whisper it gently, some of those very ladies whose charms are so loudly extolled are not the raving beauties in real life that we are led to believe. In the case of one of them, however, "the half has not yet been told," as the Queen of Sheba said. Miss Gail Kane, who stars in "Via Wireless," the well known play by Paul Armstrong and Winchell Smith, now being put into pictures by Pathe, is a stunning beauty whose charms need no qualification.

Miss Kane was born in Philadelphia and if there were many more at home like her, Philadelphia would soon have a vast increase in its male population. Tall, beautifully figured, splendidly gowned and with a peaches and cream complexion mere man can be reckoned upon to follow her in droves like the famous rats of the Pied Piper of Hamelin.

This is Miss Kane's first engagement with Pathe. She comes to her picture work with a splendid reputation gained from leading parts in "The Model," "Anatol," "Seven Keys to Baldpate," "The Miracle Man," and "The Hyphen," all Broadway successes.

## CLIFTON CRAWFORD

Noted Broadway Star Joins Pathe Forces—To Star in "The Galloper."

Another famous Broadway favorite has cast his lot to moving pictures. Donald Mackenzie announces that he has signed Clifton Crawford to play the lead in "The Galloper," the great Broadway success of Richard Harding Davis, which is now being produced for Pathe at their Jersey City Studios.

Melville Stewart, who is now playing in the "Follies of 1915," will support Mr. Crawford. The rest of the cast is also decidedly strong.

Mr. Crawford held off a long time before consenting to sign up for the silent drama, but it was the tempting contract offered by Mr. Mackenzie which caused him to decide to enter the field.

Born of actor parents in Edinburgh, Scotland, Mr. Crawford took up the stage at an early age, and after appearing in small parts for some time, became a great favorite in the English music halls. Later he came to America and played in vaudeville, where he always appeared as a headliner. Later he appeared in such noteworthy successes as "The Peasant Girl," "The Quaker Girl," and "The Three Twins." After starring for three seasons in the last named production, he made a tour of the world, and thereby earned the sobriquet of "the man who put a belt of smiles around the world."

Mr. Mackenzie's production will be released in the early Fall, and will be in five reels.

## The Corn Crop

From prospects of "bumper" wheat crops the people of the nation, both those directly interested and those indirectly interested, are now occupying their moments, devoted to quiet contemplation, in speculating on the "bumper" corn crop.

Even our substantial friends, the agriculturists, who never permit themselves to become overly enthusiastic about crop prospects are admitting that the prospect that there will be a big corn crop safely covered up in the shocks this fall when the frosty nights come along, are bright indeed.

Of course we must remember that there is a large number of fields where the corn has been drowned out and others where the weeds have choked the young corn until it will not be worth cutting.

The acreage of corn totally destroyed by floods and weeds is unfortunately large and means, of necessity, a big loss to many individuals.

Speaking generally the corn crop promises to be enormous and the yield to the people as a whole a vast amount of wealth.

The crop seems now to be in danger of destruction only by unprecedented floods or hurricanes.

While the wheat crop was not, at harvest time, all that early spring promised, the corn crop, from present indications will more than make up any shortage in the evenness of the forms attributable to a wheat shortage.

## The Teaching of Experience

Many of the really good and wholesome things of life pass unnoticed and unappreciated because the school of experience so frequently grants its diploma too late.

There are many people past and gone forever whose fine qualities, whose genius and whose charming peculiarities would have been more appreciated had we, at the time they were with us, but learned by experience how really good they were.

Much could be learned from those of our associates who now receive but little more than passing thought, had the years of experience that are to come after, taught their lesson and educated us, to realize our opportunity and the real worth of our associates.

That's the reason we so desire a return of the good old times and the good men and women of our earlier acquaintance.

There are just as good men and women now as there were years ago, the times are just as good now as they were "in the good old days" but experience has not taught us the value of that which we possess.

The same rule holds good in almost every walk of life. We see the beauties of life and realize the greatness of our associates after they are behind us. We accept our opportunities and our privileges as a matter of course paying little heed to their importance until they have passed us forever.

Our experience, it sometimes seems, would bring us more happiness if it came to us earlier in life.

## Patriotic Duty of College Students to Take a Course In Military Training

By HENRY L. STIMSON, Former Secretary of War

Photo American Press Association.

THE most vital of all shortages in the military establishment of the United States is the shortage of trained men fit to be the officers of our citizen army. That is the shortage which in the United States transcends and exceeds all others.

TODAY THERE ARE FEWER THAN FIVE THOUSAND OFFICERS IN THE REGULAR ARMY, EXCLUDING THE MEDICAL CORPS, BUT INCLUDING ALL OTHERS OF ALL AGES, ALL RANKS, ALL MANNER OF SERVICE AND DETAIL.

At the same time upward of nine hundred thousand young men reach military age in the United States every year, and it is a conservative estimate to say that one hundred thousand of such young men are finishing courses in our universities, colleges, high schools and other institutions of learning.

The students' military instruction camps which have been instituted during the past two years are the first steps taken by our government to remedy this great shortage in officers and to make available for this country in case of need this enormous force of young men. Surely the opportunity to serve should appeal to every patriotic young man in the country.

IT SHOULD BECOME THE NORMAL AND REGULAR AND PROPER THING FOR THE AVERAGE COLLEGE MAN TO DEVOTE ONE OR TWO OF HIS SUMMER VACATIONS TO THIS DUTY.

## Poetry For Today

### LOVESIGHT.

When do I see thee most, beloved one?  
When in the light the spirits of mine eyes  
Before thy face, their altar, solemnize  
The worship of that Love through thee made known?  
Oh when in the dusk hours (we two alone).  
Close-kissed and eloquent of still replies,  
And my soul only sees thy soul its own?  
O love, my love! if I no more should see  
Thyself, nor on the earth the shadow of thee.  
Nor image of thine eyes in any spring.—  
How then should sound upon Life's darkening slope  
The ground-whirl of the perished leaves of Hope,  
The wind of Death's imperishable wing?  
—Dante Gabriel Rossetti.

### Scene Painting.

In the past half century and more, especially since the improvement of the electric light, scene painting has become very elaborate and very expensive. Instead of being kept in its proper place as the decoration of the drama, as a beautiful accessory of the action, it has often been pushed to the front, so as to attract attention to itself and thereby to distract attention from the play which it was supposed to illuminate. Shakespeare has been smothered in scenery, and the art of the actor has been subordinated to the art of the scene painter.—Brander Matthews in Scribner's Magazine.

### Phonetic Spelling.

Phonetic spelling was evidently in fashion in the sixteenth century, when even Shakespeare could not spell his own name consistently. There is a letter dug from the correspondence of a lady of the sixteenth century in the book of the "Cotswold Family"—the Hicks-Beaches. Juliana writes—it is a matter of debt between the cautious widow and "My lord a Kalder"—"My lord Ammaril and your wife I honour and love, but your false swearing and promise I haterie a pore." What she really meant was "utterly abhor."—London Telegraph.

It requires a half score of European trips merely to skim the surface of things over there, so the one who vows to "see America first" has years of hiking and pleasure coming.

## Luke McLuke Says

The trouble with a loser is that he always goes and loses more in an effort to get even.

The easiest way to get a man mad is to tell him that he hasn't any right to get mad.

The reason why mother knows that daughter does not flirt is because mother always flirted when she was daughter's age.

An hour is a whole lot longer to loaf than it is to work.

Every now and then you meet a man who has a bad habit of bragging that he hasn't any bad habits.

What has become of the old fashioned carpet tack that the old fashioned man who used to walk the old fashioned baby at night used to step on?

One good thing about peace is that it gives us time to prepare for war.

Any old kind of a man will do for a husband. But a woman is hard to please when she is selecting the wall paper for the house after she is married.

The old fashioned man who spent all his time trying to invent a non-refillable bottle now has a son who spends all his time emptying a non-refillable bottle.

Once upon a time a married man offered his wife \$10 without even being asked for it. And the coroner said that her death was caused by some mysterious shock.

Tell a man that he is working himself to death and that he needs a long rest, and he will go around town and tell everybody what a brainy fellow you are.

No matter what the loss was and no matter how much the insurance was, no man will ever admit after a fire that his loss was fully covered by insurance.

## STAGE STARS FALL FOR CAMERA'S LURE

CHANGE FROM "MOVIE" TO "PHOTOGRAM" BRINGS MANY INTO NEW FIELD.

## THE SCREEN'S WIDE SCOPE

Plays Presented in Photo Form Overcome Limitations of Spoken Drama.—Pathe Announces Conversions.

It was only a short time ago as time is reckoned, since the stars of the stage spurned the advances of the motion picture manufacturers. Considering the "movies," as they contemptuously termed the film drama, as a cheap and entirely ephemeral form of amusement they considered acting in them as beneath their dignity and preferred thirty week contracts at \$200, to fifty-two weeks playing in pictures at larger figures. Today what a difference. One by one, at first apologetically, but now boldly to the sound of figurative trumpets, the great names of the stage have gone over to the "silent drama."

Bruce McRae.

Here is a list of popular stage favorites recently secured by Pathe which illustrates the trend:

Rhys Alexander, Edwin Arden, Richard Carle, William Courtleigh, Jr., Clifton Crawford, Arnold Daly, Lione Barrymore, Frederic de Belleville, Katherine Brown-Decker, William Elliott, Max Figman, Wm. Riley Hatch, Gail Kane, Sheldon Lewis, Lillian Lorraine, Fania Marinoff, Bruce McRae, Bliss Milford, Lolita Robertson, Jessie Ralph, and Melville Stewart.

Just one of those famous names at tached to a photoplay two years ago would have made a sensation and yet the house of Pathe calmly announces now that other big stars will be signed in the near future!

The demand of the hour for efficiency is a hopeful sign, efficiency in every form of activity. People in this favored land have always been as profligate of time as of nature's bounties, and after generations of go-as-you-please activity it was time to hark back to the axioms "Don't scatter your powder" and "Hit the nail on the head." Efficiency looks continually to the end sought and picks up dropped stitches along the way. When tools and implements are left where last used at quitting time valuable moments are lost getting started right next day. "A place for everything and everything in its place" is a good rule in shop, office and store, as well as in the thrifty housewife's kitchen. Red tape system may be carried to absurd lengths, yet in the long run it pays to clean things up as we go along.

# FOURTH REGIMENT WILL GO INTO CAMP FIRST OF WEEK

**Company M Leaves This City Monday Morning for Week Encampment at Yellow Springs—Entire Fourth Regiment Will Reach Camp By Noon Monday—General Orders.**

The Fourth Regiment, O. N. G., of which Company M is a part, will go into camp at Yellow Springs Monday and remain one week, during which the troops will be put through regular field service, fight sham battles and undergo inspection and review.

The soldiers will assemble at the Armory, Sunday afternoon and spend the night there in readiness for the departure on the C. H. & D. at 9:24 Monday morning. The train will arrive in Xenia at 10:29 and the baggage of Company A of that city will be loaded in the baggage car provided for Company M. The trip to Yellow Springs will then be made over the Pennsylvania lines.

General Orders issued to the officers of the Regiment state that:

"In boarding cars each company will enter the front of its car in column of files and march to the rear of the car before halting to dispose of equipment. In detraining, each company will leave its car by the

rear door and form column of squads at the side of the car with head of column near front of car.

"Beginning August 9th Captain Frank L. Oyler will act as inspector and instructor of the Guard. He will also act as Officer of the Day until Guard is changed on evening of August 9th.

"The senior officer of each section of the trains will be in command of his train enroute and will attend to Guard Duty in the absence of the Officer of the Day.

"Immediately upon arrival at Yellow Springs, each Company Commander will detach four men to Regimental Quartermaster for handling of baggage and pitching office, store and other tents and other necessary work. Two line officers will be detailed with this detail.

"The Regimental Quartermaster and two men and the Regimental Commissary and Sergeant will proceed to Yellow Springs on Sunday, August 8th for discharge of preliminary duties. Lieutenants Grave, Sheldon and Huston will load quartermasters' baggage at Columbus and attend to all details relating to entraining troops.

"Bed sacks will be carried for enlisted men.

"Attention is called to Standing Camp Orders, this regiment, insofar as same apply."

then attempted to get her away to Springfield. The woman, it is said, made no answer.

The case is attracting more attention than anything that has come up in police court of Xenia for several years. Padgett refuses to talk about the case.

## WOMAN HELD IS FROM THIS CITY

It has developed that Mrs. Mollie Smart, who, in company with George Padgett, a taxicab driver, is held in Xenia for contributing to the delinquency of Mina Donaldson, 14-year-old daughter of Wilson Donaldson, of near Frankfort, has been making her home in this city for sometime, and was on her way to Springfield when the crime was committed.

It is charged that the woman saw the girl at the depot in Xenia and placed her in Padgett's cab, and the child was detained over night, drugged and when found next day was in a pitiable condition.

Padgett was arrested on a charge of criminal assault and the Smart woman was held as an accomplice in the crime. They are now in the Xenia Jail and their preliminary hearing has been set for Saturday afternoon. Their bond was fixed at \$600.

Regarding the affair the Springfield Sun says, in part:

Mrs. Smart told her story to the police of that city, saying that she had lived in Springfield for 14 years until domestic troubles caused a separation from her husband. She had resided in Washington C. H. for some time. She said she had started to Springfield, where she was to sew. She told the police that she met the girl on the train and when her brothers did not meet the child at the station she attempted to help the girl find them. She said she had nothing to do with the abduction of the girl, and she furthermore said she saw nothing of an assault upon the girl.

After hearing her side of the story Chief Canaday asked, if such was the case, why she had kept the girl out the big picnic to be held at Bookall night and a part of Sunday and

Not For Strangers.

"What in the world does that mean?" asked the traveler through a sparsely settled region on the Cape. "There's no such place on my road map."

The man whom he addressed first took a leisurely survey of the traveler and his horse and then turned his eyes toward the weatherbeaten sign, which bore the single word "Tolpomp."

"That ain't a name," he said, with dignity. "It's just an indication. It means 'To Long pond one mile.' It's plain enough to folks from nearby that's hunting for the pond, and we don't reckon on strangers taking much interest."—Youth's Companion.

CHAS. BISH JOHNSON.

To the Citizens of Washington C. H., Ohio:  
I wish to say, as a Republican candidate for nomination and election for Mayor, that my chief aim is for a good, clean administration, with strict enforcement of all laws, as they appear on the statutes, with partiality to none.

As yet I have not thought of any appointees for any position but I hope to be able to find men to fill such appointments, who will assist me in making Washington a good law abiding city.

## BENEFITS FROM BOOKS.

Traveling Along the Roads That Lead Us Into Other Worlds.

The benefit of literature can hardly be overestimated. Books enlarge a man's horizon. They raise a mirage of water brooks and date palm to travelers in the desert. They are "the sick man's health, the prisoner's release." Shut within a narrow routine of dull necessity, sad at heart in a world where wrong triumphs, where beauty has no assurance of respect, where humanity toils terribly merely for its daily bread or the satisfaction of trivial appetites, the earthly pilgrim need do no more than pick up a book and, lo, he steps into another world.

Here he is free from sorrow and care, free from the burden of his body, from envy, jealousy, contempt, self satisfaction, from vain regrets, from wishes that can never wear the livery of hope, from narrowness of soul and hardness of heart.

He may mingle in the society of the good and great; he may listen to the wise man and the prophet; he may see all the conditions of human happiness and misery; he may watch the human spirit in its strife with circumstances nobly conquer or basely succumb; he may go down through the "gate of a hundred sorrows" or accompany Dante and Beatrice through the spheres of paradise.—Atlantic Monthly.

## Hard Water.

The streams of water used in hydraulic mining are said to be so swift that if one tried to back into them with a sword the weapon would fly to pieces. The water is moving so rapidly that it has no time to yield beneath the stroke and in consequence is like a bar of iron.

The European allies are learning at the point of the bayonet that if the government wants any emergency work done on time it must do it itself. There are many cogs in private enterprise which may slip at the vital moment. Time cannot be extended on a contract to furnish supplies for a decisive battle which the enemy can spring at will. Early in our civil war Secretary Stanton ordered that all military supplies be homemade as far as possible and exclusively so when possible. He would take no chances on uncertain supplies from abroad. That was a long step toward a certain measure of government control, because the government could speed up the home producer. Lack of powder may turn a battle, and if hired factory men strike soldiers can fill their places.

FIRST AID REMEDIES

Prompt and intelligent action before the arrival of a physician often averts the serious results which are apt to follow accidents or sudden illness. Every home should be provided with a few emergency remedies. We suggest:

Pure Witch Hazel, Camphor Gum, Turpentine, Arnica, Liniments, Salves, Ginger, Court Plaster, Mustard, Bandages, Absorbent Cotton, Etc.

ACCIDENTS OF FORTUNE.

Incidents That Led to the Rise of Two Famous Dramatic Stars.

More than 200 years ago a dramatist, sitting in the bar of a London tavern, overheard a girl in the next room reading aloud from a play book, and he was so much pleased by the sound of her voice and the fluency and sprightliness of her delivery that he sought acquaintance with her, obtained her confidence and opened for her the way to a successful dramatic career. That girl, a dramatic genius thus accidentally discovered, was Anne Oldfield, who adorned the English stage for twenty-five years, whose ashes rest in the cloister of Westminster abbey and whose name is one of historic renown.

A theatrical manager in Cincinnati in the seventies, having planned to produce a popular comic opera with a chorus composed of pupils from the public schools, selected Sarah Frost, then a girl about twelve, perceived her theatrical aptitude and provided the opportunity for its development. The manager was Robert E. J. Miles, and under his direction she made her first appearance on the stage and passed her juvenile novitiate.

Her stage name at first was Fanny Brough. Later she adopted that of Julia Marlowe.—William Winter in Century Magazine.

A Master of One Art.

"Have you ever loved any other girls?" breathed the maiden tremulously.

"Well, I have attempted a few kindergarten, prep school and college courses in affection," responded the man in the case, "but this represents a real purpose to get rid of my bachelor's degree."

Whereupon he took a little firmer hold.—Richmond Times-Dispatch.

Professional Reticence.

"Did that man quote you correctly in that interview?"

"I can't tell," replied Senator Sorghum.

"Don't you know?"

"Yes, I know, but I can't tell until I have learned how my constituents like the article."—Washington Star.

London Experts Figure on Kaiser's Next Move.

POLISH CAPITAL IS STRIPPED

German Invaders Find Little of Value in City After Russian Army Makes Its Exit—Forces of Grand Duke Nicholas Fighting Desperately to Avoid Falling Into Trap Set For Them by Teutonic War Leaders.

Petrograd, Aug. 6.—After blowing up all the bridges across the Vistula, the Russians in the Ivangorod district have crossed to the right bank, according to the official statement. The communication does not mention the fall of Warsaw.

London, Aug. 6.—With Warsaw evacuated by the Russians and in the hands of the Germans, military experts here are now predicting the same fate for Riga, the Baltic port on the north, in the near future, the arrival of the German army within ten miles of that city being the cause of the civilian population departing.

While the Bavarians commanded by Prince Leopold has fallen the honor of taking over Warsaw in the name of the German emperor and his consort, who are expected to make a state entry within a few days, the real conquerors are the troops fighting under Field Marshal Von Hindenburg, along the Narew river to the northeast; the Austro-Germans, who crossed the Vistula to the south of the city, and the armies of the Austrian Archduke Joseph Ferdinand and the German Field Marshal Von Mackensen, which are advancing northward between the Vistula and Bug rivers.

The Russians are fighting desperately and stubbornly to check the progress of these four armies and have had several successes, inflicting heavy losses on their pursuers; but they are being steadily pressed back, which made the longer occupation of the Warsaw-Polish salient a hazardous undertaking.

Even now, although the steadiness of the Russian troops and their fierce counter attacks have gained much valuable time for them, it is problematical whether the whole Russian army will succeed in reaching the new positions chosen for it, or whether, if it should get there, it will not find those positions turned by the Austrians, who have crossed the Bug southeast of Chelm, and the Germans under Generals Von Scholz and Von Gallwitz, who have crossed the Narew.

At the northeastern end of the line the Russian communications are further threatened by General Von Buelow, who is advancing toward Dvinsk, on the Vilna-Petrograd railway. Indeed, the Austro-Germans have set three traps to catch and destroy the Russian army. None of them was sprung, but one was so near to closing that Grand Duke Nicholas was forced to evacuate Warsaw and now is fighting with all his might to prevent the others from cutting off his retreat.

From refugees who left Warsaw some days ago and have arrived at Moscow it has been learned that Warsaw, even at that early date, had been denuded of virtually everything that might be useful to the Teutons. Factories had been stripped of their machinery and all war stores moved into the interior of Russia and the government of the city left to the Polish population.

Since early in May, when they started their great counter offensive in western Galicia against the Russians, who were debouching through the Carpathians onto the plains of Hungary, the troops of the Germanic powers have cleared the Russians out of Galicia, with the exception of a strip of territory in the southwest; have recaptured Przemyśl and Lemberg, taken Lublin, Chelm and Warsaw, and are in military occupation of virtually the whole of Poland.

The Secret of a Good Figure often lies in the brassiere. Hundreds of thousands of women wear the Bienville Brassiere for the reason that they regard it as necessary as a corset. It supports the bust and back and gives the figure the youthful outline fashion desires. They are the daintiest, most wearable garments imaginable. Only the best of materials are used—for instance, "Wolohn," a flexible bonding of great durability—absolutely rustless—permitting laundering without removal. They come in all styles, and your local Dry Goods dealer will show them to you on request. If he does not carry them, he can easily get them for you by writing to us. Send for an illustrated booklet showing styles that are in high favor. BENJAMIN & JONES 50 Warren Street Newark, N. J.

What their next move will be is a matter of conjecture. Some military observers believe they will continue to attack the Russians in the hope of finally crushing them, a task which it is considered is rendered difficult by the fact that the Russians in their retreat lay the country waste, making it necessary for the invaders to bring up every ounce of food required for their army.

Others of the observers think Serbia will be attacked, so as to impress the Balkan states which remain neutral, while still others look for a big offensive against the Franco-British-Belgian line in the west.

All of the observers are of the opinion that wherever the new operation is begun it will be on a big scale.

The Germans also have had local successes in the west, recapturing on the crest line in the Vosges a portion of the trenches which the French took from them some time ago.

MUST FIGHT OR GO UNDER

London, Aug. 6.—Lloyd-George, acclaimed by enthusiastic thousands of his Welsh compatriots at the Banger eisteddfod, delivered an inspiring address in the native tongue of Wales.

"What is the good of asking, 'Is it to be peace?' he said. 'There is no peace because an unclean spirit possessed the rulers of a great nation.'

"Some of us thought that the religious revivals of the eighteenth and nineteenth centuries had broken the fighting spirit of our race. No real religion ever yet broke a nation's spirit; it disciplines its strength, it elevates its purpose, and when justice is menaced that nation becomes more formidable than ever.

"Today we have a greater army from Wales alone than Wellington commanded at Waterloo, and they have not yet ceased coming. I have no doubt that, however long victory may tarry, it will ultimately come. We may have to wait for the dawn. The eastern sky is dark and lowering and the stars are clouded over. I regard that stormy horizon with anxiety but with no dread. I can see the color of new hope beginning to purple the sky. The enemy in their victorious march know not what they are doing. Let them beware, for they are at last arousing Russia. With their monster artillery they are only shattering the rusty bars that fettered the strength of the people of Russia. You can see them shaking their powerful limbs free from the stifling debris, preparing for the conflict with new spirit. Austria and Prussia are doing for Russia today what their military ancestors effected for France, just as unwittingly. They are hammering the sword that will destroy them and freeing a great nation to wield it with a more potent strike and a mightier sweep.

"We must fight on or forever sink as a people into impotent obscurity. Our own task is becoming greater as the days roll past. It is to see that the suffering and the loss shall not be in vain that the wheat, not tares, shall be sown in the bleeding soil, and in due season we shall reap if we faint not."

The address made a wonderful impression, and throughout the minister of munitions was interrupted with cheers, and as he finished, spontaneously there arose a great chorus from thousands of throats.

GREAT FLAG IS UNFURLED

Canton, O., Aug. 6.—Speaking at the dedication here of the world's largest flag, Governor F. B. Willis referred to the United States foreign policy and urged that Americans stay at home to prevent repetition of outrages similar to the sinking of the Lusitania.

"Our passion is peace," he said. "Let Americans stay at home while the senseless war dogs fight in Europe. Let us stay at home, where we belong, and attend to our own business."

The flag has been in the making for seven months. Women of the city took turns in sewing together its gigantic stars and stripes. Unfurled before a crowd of 10,000, it showed its 3,100 square feet. Its stars are as broad as a man is tall and its stripes are the length of a city block.

PRESIDENT IS READY FOR FRAY

Expects Warm Opposition to His Defense Program.

BRYAN STRENGTH ADMITTED

Executive Will Consult With Heads of Naval and Military Committees in Hope That Plan For Securing Appropriations Can Be Completed by Time Congress Settles Down to Business—Kitchen Opposes Increases.

Cornish, N. H., Aug. 6.—President Wilson is laying his plans for coping with the political opposition to the administration's national defense program which is anticipated from the Bryan following and other factions in congress at the next session.

The president's advisers are aware that his program for an elaborate reorganization and increase of the army will meet with bitter opposition within the Democratic party in congress, and an important feature of his proposition for the forthcoming session is a provision for smothering this opposition.

The president disclosed that he is planning to hold a series of conferences with the chairmen of the naval and military committees of the house and senate following his return to Washington. He is determined to secure the support of the leaders of these committees for his program at the outset of the session, so that by the time the session gets under way he may be enabled to devote his attention to the opposition to the increased armament projects which is certain to develop within the ranks of the Democratic membership.

Mr. Wilson said that although his plans for the national defense program are indefinite at this time, he will consult the naval and military affairs chairmen in order to map out the increases which the president has practically committed himself to already. There is no tendency in their minds to discount the strength of the following Mr. Bryan will be able to muster in the house, where a number of the present leaders are still regarded as his friends.

Opposition is looked for in other quarters, however; for one thing, Representative Claude Kitchen of North Carolina, who is slated for the chairmanship of the ways and means committee and the majority leadership, already has given out an interview placing himself on record as opposed to a big battleship program. Another disquieting factor was the action of Representative Hay of Virginia, chairman of the house committee on military affairs, in giving out a similar interview with respect to the army increases.

POLICE ARE SEEKING ASSAILANT OF GIRL

Fostoria, O., Aug. 6.—Miss Blanche McCandless, twenty, daughter of Mr. and Mrs. Edward McCandless, was attacked while working at the home of her sister, Mrs. LeRoy Dillon, two miles east of the city, by an unknown man, who threatened to kill her. She was found an hour later by her sister, in the pantry of the farm residence, bound with a clothes line and her head wrapped in a table cloth. Marks of the assailant's fingers showed plainly on her throat and there was a bruise on her forehead where he had struck her with a clubbed shotgun. She will recover. Police are searching for the assailant, whom Miss McCandless was able to describe.

GUNMAKERS ARE ON STRIKE

Ilion, N. Y., Aug. 6.—A general strike of the employees of the Remington Arms company was declared as the climax of the walkout since Monday, when the men learned the company would refuse to grant them wage increases of 25 per cent on piecework. The 600 employees remaining in the plant are expected to join the strikers. The strikers say 2,400 of the workers are now out.

GONZALES IN MEXICO CITY

Mexico City, Aug. 6.—General Pablo Gonzales, chief of the Carranzista forces, entered the capital with his entire army. Three brigades of his troops paraded through the streets of the city while the church bells rang and throngs of people gathered along the route taken by the soldiers. The entrance of General Gonzales ends the uncertainty of the last Carranzista occupation of Mexico City due to the fact that the opponents of the "first chief" spread many rumors to the effect that the Carranzista forces had evacuated the city again. Sponsors for these reports pointed with significance to the fact that General Gonzales remained at the nearby town of Guadalupe.

General Gonzales established his headquarters in the national palace. As head of the military government of Mexico he will begin to transact the business of the government. After the troops paraded through the city food was distributed to several hundred of the poor of the capital.

BELGIANS POUR INTO AMERICA

New York, Aug. 6.—On the Ryndam, in from Rotterdam, were 1,008 Belgians, including 80 children of all ages, from three to fourteen. They were brought here by the Belgian-American relief society. The parents of all but one of the children live near Detroit and the little folk will be sent to them at once.

VILLA TO BECOME GUERRILLA

Mexican Leader, Driven to Wall, Refuses to Give Up.

El Paso, Tex., Aug. 6.—General Alvaro Obregon arrived at Monterey from San Luis Potosi, according to official dispatches received by Andrew G. Garcia, consul for Carranza here.

Following his train were long lines of coaches carrying 10,000 of General Castro's cavalry division. The arrival of this Carranza force makes the fall of Saltillo and Torreon almost inevitable within a short time. General Francisco Villa, who arrived in Juarez, declined to discuss the military situation in any way, but asserted that he was not through fighting by any means. He refused to discuss the report from Torreon that his entire army at that point had threatened to mutiny unless he returned and takes personal command, but asserted with considerable show of anger: "They think they have me cornered."

ONE MORE CHANCE FOR MEXICANS

Final Summons to Warring Factions Is Forthcoming.

CONFERENCE BRINGS RESULT

Latin-American Republics Will Join United States in Final Effort to Restore Peace Before Drastic Measures Are Adopted—Note Will Be Ultimatum to Carranza to Join Villa and Zapata in Effort to End Strife.

Washington, Aug. 6. — The United States will send to the warring factions in Mexico a final summons to get together for the composing of their differences or take the consequences of action by Washington.

Tols warning to the Mexican leaders will have the full support of the six Latin-American governments whose representatives were called into conference on the Mexican situation. Agreement to this effect was the result of the first session of the conference held in the office of Secretary Lansing.

These conferences were resumed this afternoon, and it is hoped that at the conclusion of this second session all details of the procedure to be taken by the United States in Mexico will have been definitely decided upon.

The notice to the Mexicans, which will constitute the next step in the president's plans for restoring peace in Mexico, will in effect really be an ultimatum to Carranza. Inasmuch as Villa and Zapata already have agreed to co-operate for a settlement of the political situation in Mexico, the next summons will be a warning to Carranza that he must either come in with the other two leaders or be eliminated through the power of the United States.

No one here anticipates that Carranza will yield in the slightest degree. Consequently, it is expected that the United States' warning will speedily be followed by steps to consolidate the other factions in Mexico and the establishment of a government by them which shall have the unmeasured support of the United States.

AMERICAN STEAMER PORTLAND RELEASED

Berlin, Aug. 6.—Release of the American tank steamer Portland has been obtained from the foreign office by American Ambassador Gerard. The Portland was seized and taken into Swine Munden by a German warship. The ambassador is now taking up the matter of the American ships Dunsinger and Pass of Panama with Foreign Minister Jagow. The latter ships are at Cuxhaven.

"Finest Cathartic I Ever Used"

"They do not gripe and their effect is quick and sure"—says L. L. Levey.

"For a long time I suffered from constipation and liver trouble," says Mr. L. L. Levey of Green Bay, Wis. "Nothing seemed to help me. I finally secured a package of Foley Cathartic Tablets and am pleased to state that they have cured me. They are the finest cathartic I have ever used, as they do not gripe at all, and their effect is quick and sure."

If you are at all troubled with constipation, Foley Cathartic Tablets will be a blessing to you—they not only induce natural, comfortable movement, but they have a strengthening and beneficial effect upon the intestinal tract.

Foley Cathartic Tablets can safely be taken by any and every member of your family. Like all Foley remedies they are sold in yellow packages. Accept nothing but the genuine.

ONE MORE CHANCE FOR MEXICANS

Final Summons to Warring Factions Is Forthcoming.

CONFERENCE BRINGS RESULT

Latin-American Republics Will Join United States in Final Effort to Restore Peace Before Drastic Measures Are Adopted—Note Will Be Ultimatum to Carranza to Join Villa and Zapata in Effort to End Strife.

Washington, Aug. 6. — The United States will send to the warring factions in Mexico a final summons to get together for the composing of their differences or take the consequences of action by Washington.

Tols warning to the Mexican leaders will have the full support of the six Latin-American governments whose representatives were called into conference on the Mexican situation. Agreement to this effect was the result of the first session of the conference held in the office of Secretary Lansing.

These conferences were resumed this afternoon, and it is hoped that at the conclusion of this second session all details of the procedure to be taken by the United States in Mexico will have been definitely decided upon.

The notice to the Mexicans, which will constitute the next step in the president's plans for restoring peace in Mexico, will in effect really be an ultimatum to Carranza. Inasmuch as Villa and Zapata already have agreed to co-operate for a settlement of the political situation in Mexico, the next summons will be a warning to Carranza that he must either come in with the other two leaders or be eliminated through the power of the United States.

No one here anticipates that Carranza will yield in the slightest degree. Consequently, it is expected that the United States' warning will speedily be followed by steps to consolidate the other factions in Mexico and the establishment of a government by them which shall have the unmeasured support of the United States.

ITALIANS CAPTURE VALUABLE POSITIONS

Rome, Aug. 6.—The advance of the right wing and center of the Italian forces in the Doberdo plateau, in the enveloping operations against Goritz, continues despite vigorous attempts on the part of the Austrians. General Cadorna, the chief of staff, reports that the Italians repulsed Austrian attacks and captured entrenched positions of great strategic value.

MARSHAL WON'T QUIT HANGED IN EFFIGY

Marysville, O., Aug. 6.—The marshal of Agosta refused to comply with a demand that he resign, and residents awoke to find an effigy of the marshal hanging in a street. No one volunteered to cut the dummy down.

Port Syden, Muskoka, Ont., Aug. 6.—Five persons were drowned near here when an automobile skidded on the floating bridge across Long lake and, breaking through the railing, plunged into the water.

World's Biggest Statue.

The largest statue in the world is now being carved in Japan. It is a recumbent effigy of Nichiren, a Japanese patron saint, cut from a natural granite rock on a hillside on the island of Ushigakubi, or "the cow's head," in the inland sea of Seto, Japan. The stone image will be 240 feet long from head to foot, sixty feet longer than the sleeping Buddha statue at Segu, Burma, and considerably larger than the sphinx in Egypt. —Chicago Journal.

Cocoanut Oil Cheese.

Recently cocoanut oil has been used as the basis for the manufacture of a "condensed milk" said to be chemically indistinguishable from condensed cows' milk, and claim is advanced that an excellent cocoanut oil "cheese" will shortly be placed on the market. Cocoanut lard is highly appreciated by Mohammedans, whose religion forbids them using any product derived from the hog.

MARINES TAKE HAITIEN FORT

Port au Prince, Haiti, Aug. 6.—American forces from the battleship Connecticut have occupied, without striking a blow, the national fort which dominates the town. A proclamation has been posted in all quarters, signed by the president of the revolutionary committee, protesting against the misuse of force against a friendly people.

"Ma, your bank account is overdrawn."

"What does that mean, pa?"

"Simply this. You've written checks for \$13 more money than was in the bank."

"The idea! If \$13 will break the bank I'd find another one to do business with. I supposed they had thousands of dollars on hand all the time."—Detroit Free Press.

Newspaper Advertising

Goes direct to the people and the people constitute the buying public. Newspaper advertising not only talks but it emphasizes; it has the undivided attention of the reader and covers a field no salesman can hope to reach. There are many styles in newspaper advertising and the small announcement, which costs only five cents, is just as effective in its way as the larger one, which costs proportionately more. The benefits to be derived can not be measured by the size of the ad, for the very good reason that the small, inexpensive announcement invariably proves effective. Newspaper advertising costs from five cents up to any price the advertiser desires to pay.

WONDERLAND!

CLOSING DAY OF INSTITUTE

Today 5c and 10c

YOUNG ROMANCE

A drama of romantic youth, founded on the successful play by Wm. C. Demille.

EDITH TALIAFERRA, Starring.

The closing day of the Fayette County Teachers' Institute witnessed a full attendance of the teachers in the county and a large number of members of Boards of Education were present.

One of the chief events of the morning was an interesting address by Prof. Oliver, of the State School Commissioner's office. Miss Rudy, of Dayton, gave an interesting demonstration of teaching the "teenie weenies."

The round table was conducted by District Superintendent Frank M. Allen, proving a most interesting feature of the closing day's session.

A special program Friday afternoon is closing one of the most successful institutes ever held in the county, and the committee which worked untiringly in contributing to the success has been roundly complimented for the splendid institute just closing.

The question of recognition of the Institute by the proper officials, taken up at the Friday morning session, was of particular interest to a great many of the teachers.

FORMER SECT. OF WAR DEAD

By Associated Press.  
New York, August 6.—(Bulletin)—General Benj. F. Tracey Secretary of War under President Harrison, died this afternoon.

General Benjamin Franklin Tracey, lawyer, soldier, jurist and statesman, has stood prominent in the public eye for more than 60 years. He was born in 1830.

"Some people have called me 'the father of the fighting navy,'" he had said recently. "I won't deny it. I believe I am. I tried to take the Navy Department out of politics and I believe I succeeded."

"At that time," said Gen. Tracey, "the cruiser Baltimore was the largest and strongest ship we had, and she was only a protected cruiser. I saw the necessity of building ships which could fight if they had to."

"What's the use of building a ship that can't run away from a ship it can't whip?" demanded the Secretary in his appeals. The phrase has become historic.

HONOR MEMORY OF MRS. WILSON

By Associated Press.  
Rome, Ga., August 6.—Many people paid tribute to the memory of Mrs. Woodrow Wilson today, the first anniversary of her death, by placing flowers on her grave.

TREASURER IS EXECUTED

By Associated Press.  
El Paso, Texas, August 6.—Arrivals from Chihuahua City today declared that the state treasurer of Chihuahua was executed Wednesday on orders from General Villa.

**A Curious Experience.**  
Lombroso, the famous Italian criminologist, once had a curious experience. He was in a printing office correcting the proofs in his "Delinquent Man" with the chief reader when on reaching a page which dealt with a young man who, impelled by jealousy, had stabbed his fiancée he made a surprising discovery. The proofreader was this man.

"Suddenly," Lombroso said in telling the story, "he threw himself at my feet, declaring that he would commit suicide if I published this story with his name. His face, before very gentle, was completely altered and almost terrifying, and I was really afraid that he would kill himself or me on the spot. I tore up the proofs and for several editions omitted his story."

**Thunder.**  
Winter thunder is considered throughout Europe to be of very ill omen, but April thunder is considered to be very beneficial. In Devonshire and other older counties of England there is a saying that "when it thunders in April you must clean up the barrels"—in readiness, that is, for a plentiful crop of apples. The French consider April thunder to be indicative of a good yield from vineyards and cornfields.

SAVED HIMSELF, UNAWARE.

Showing How the Eye Sees More Than One Thinks It Does.  
Writing on psychological subjects in the Ladies' Home Journal, H. Addington Bruce says:  
"From Dr. A. H. of Pennsylvania, one of our well known psychologists, I have received this impressive piece of testimony to the power of the eye to see more than one consciously apprehends:  
"Three summers ago, when I was on a visit to my old home town, I took a short cut across familiar fields where a fair growth of weeds covered the ground. I was going along at a rapid gait, with my mind wholly occupied with matters other than my path, when suddenly, quite reflexly, my left foot, instead of going down on the spot where it should, jerked itself over to the left, and I went on fully ten steps before I realized that I had made the sharpest kind of an offset in my path. I wondered what made me do it, turned, retraced my steps and found an adder still coiled and ready to strike, exactly, as I judged, where my foot would have gone."  
"Dr. A. H., recognizing the correct explanation of his fortunate misstep, adds:  
"During my boyhood summers I used to go barefooted much of the time. Through sad experiences with stubble fields, briar patches and stony paths I learned automatically to pick my way without giving thought to the matter. As a result, I find myself frequently in my walks avoiding obstacles which at the moment I do not consciously discern."

**Angel Coins.**  
An "angel" was an ancient gold coin weighing four pennyweights and valued at 6s. 8d. in the reign of Henry VI. and at 10 shillings in the reign of Elizabeth in 1562. It took its name from the effigy of an angel embossed on one side.

**Mollified.**  
This really happened in New York the other day:  
Displeased Parent—Molly, I find you have been buying three pairs of gloves without my permission. Why did you do it?  
Miss Molly (aged twelve)—Why, daddy, I was obliged to have some gloves I hadn't a pair to wear!  
Displeased Parent—It was very wrong of you to buy the gloves without asking either your mother or me about it.  
Miss Molly—Well, never mind, daddy, dear. They won't cost anything. I had them charged!—New York Post.

The American custom of long distance practice rides for army officers would have prepared the Russian officers to find a safe rear in their great retreat.

Sometimes it is a grave problem for parents what to do with their boys and girls and, again, what to let the young folks do with their old folks.

Judging from the amount of advice urged upon the government at Washington, this must be a nation of inspired sages or inspired idlers.
